

Plan for Proximate Village of Rochester Hills Christmas Show

A Rochester Hills Michigan

B Show will be held on November 18th at aprox. 8:00 P.M.

C Show to be held at the Village of Rochester Hills from two separate roof tops.

D John Campau will be the person in charge of all operations on site.

E A total of 7 techs. will be on site.

-John Campau	age	38
-Shawn Kosecki	age	27
-Daryl Cohoon	age	47
-Aaron Anderson	age	57
-Travis Doren	age	35
-Jenny Campau	age	40

F John Campau has 20 years experience with over 500 shows as crew leader.

G Attached you will find the Insurance Certificate for the display.

H Attached is a product list and a overhead view of display setup with fallout area and safe distance lines.

I John Campau has used all the devices on the product list several times in recent seasons. All devices to be displayed for the Village of Rochester Hills Christmas lighting show came from the same batch as the ones John has worked with earlier this year.

J MSDS sheets are attached.

K All devices will be securely mounted in wooden crates with some of the devices wrapped in tin foil where risk of fire may be higher.

L A demonstration of some of the devices can be performed for a safety inspection at fire marshal's convenience several hours before main show.

M All fireworks will arrive in cube truck and brought to the roof top via two loading dock areas on the eastern side of the mall.

N Two technicians will be on each roof top. One will be in charge of a shut down panel and will have full control to shut down his part of the show in the event he feels the display has become unsafe. The other tech will be on fire-watch and be prepared to put out any spot fires if they occur.
