TRAFFIC CONTROLS

Intersection of Brewster Rd at N Fairview Lane - Section 5

Background

Due to concerns regarding the egress of vehicles from the Brewster Elementary School site, City and Oakland County Sheriff staff reviewed the existing No Turn On Red turning movement restrictions at the subject intersection. At the start of the school year, DPS staff bagged the existing No Turn on Red sign at the school's exit on a trial basis.

Based upon field reviews performed by the OCSO throughout the school year, the driveway operations have been improved by allowing motorists to exit the site in a timely manner; therefore minimizing the congestion and traffic conflicts during school arrival and dismissal times.

Recommendation

The following is the recommendation for the regulatory turning movement (TM) traffic control device for this intersection:

Rescind TCO TM-18 to remove the turning restriction from the school driveway for EB vehicular movement at Brewster Rd and support having TCO TM-34-16 approved.

**TM-34.1 NO TURN ON RED from northbound Brewster Rd onto
N Fairview Ln at their intersection between the hours of 8:00 AM
4:00 PM, School Days Only.**

**TM-34.2 NO TURN ON RED from westbound N Fairview Ln onto
Brewster Rd at their intersection between the hours of 8:00 AM
4:00 PM, School Days Only.**

Action Requested

Request the Advisory Traffic and Safety Board (ATSB) to support having the **TCO No. TM-34-16** issued and that the ATSB recommend that the City Council approve this TCO rescinded or superseded.
