DATE: June 7, 2016
SUBJECT: Update from Clinton River Watershed Council

REQUEST:

Present the Rochester Hills City Council with an overview of a new rain garden scheduled to be completed this fall.

BACKGROUND:

The Great Lakes Clean Communities Network (GLCCN) recently gave funding available through its Community Partnership Program to small projects that improve water quality in a local watershed. The Clinton River Watershed will be using this funding to create a rain garden.

Rain gardens recreate a natural system of water recycling. Rainwater slowly percolates into and through the soil where it replenishes groundwater and/or water is taken up by plant roots or the atmosphere.
