Re: Master Plan Status Report

In 2020, the City completed the State of Michigan's Redevelopment Ready Communities (RRC) certification. The RRC program is a certification program offered by the Michigan Economic Development Corporation to highlight communities throughout the State who offer superior customer service, promote transparency and have streamlined their development approval processes. A requirement of that certification is continued monitoring of the progress made on the implementation of the recommendations made in a community's master plan. Attached is a status update on each of the recommendations made in the 2018 Master Plan update. The Planning Commission is not asked to take any action on this item but staff wanted to take the opportunity to share this update.
