Legislative File No: 2022-0300

**TO:** Mayor and City Council Members  
**FROM:** Bill Fritz, P.E., Director of Public Services  
**DATE:** July 11, 2022  
**SUBJECT:** "2022" Pavement Striping Program, City File #E20-011

---

**REQUEST:**

The Department of Public Services requests City Council authorize a blanket purchase order/contract for the "2022" Pavement Striping Program to PK Contracting, of Troy, MI in the amount of \$61,087.39 with a 5% contingency to allow for quantity adjustments based on final measurements verified in the field in the amount of \$3,054.37 for a total not-to-exceed contract amount of \$64,141.76.

**REASON FOR PURCHASE:**

The Road Commission for Oakland County (RCOC) received bids for their "2022" County-Wide striping program and P.K. Contracting, LLC was awarded the RCOC contract on April 29, 2022 as the lowest, responsive, responsible bidder, and has agreed to extend the same unit contract pricing to the City of Rochester Hills for the "2022" program year.

The City's "2022" Pavement Striping Program includes the application of sprayable thermoplastic for the white and yellow longitudinal lines. The benefits of using sprayable thermoplastic over waterborne paints are as follows:

- 1) Thermoplastic is a more durable product and only requires one (1) application per year versus two (2) applications for waterborne paints.
- 2) Longer life with prolonged retro-reflectivity (40 mil material versus 15 mil material).
- 3) Due to spray able thermoplastic's quick drying time, disruption to traffic is minimized since no coning off of roads is required.
- 4) Reduced potential for vehicle tracking of wet materials. This results in fewer or no claims due to fast dry time (product dries after marking vehicle has traveled approximately 200 feet).

The "2022" Striping Program is essential to the City of Rochester Hills due to it enhancing the safety of road users. These functional road markings assist in reducing crashes, mitigating injuries and minimizing associated liabilities.
