Describe the process in which orders can be placed with your company?	Customer Service Team accepts phone or email. Can also send email or call Account Manager. Customer Self Service is available 24/7, and can be used on a computer, tablet or cellphone.	Is flexible with ordering. Can call and speak to a customer service rep., Fax, email or online order from their platform.	Orders can be made via phone, can be emailed to Account Coordinator or Sales Consultant, and can be entered online with secure user specific login.	Phone, fax, online and email. Online orders can have multiple levels of approvers and they can set up a dollar amount if City would like for different departments.	Telephone, Fax, EDI, Punch-out, online via Nichols website. Benefits of online ordering is 24x7 access, web based, real time inventory data, approval process, access to purchase history reports, restrictions can be placed on what products can be ordered.	Variety of ways to shop, including online, mobile app, electronic data interchange, buy online, pick up in store, Telephone. Their website is fully customizable.
Describe the breadth of inventory items on hand & availability of products.	Their 70,000 corporate warehouse houses about 1,500 different items. This allows them to keep a large surplus of stock on many core items. When orders are placed and there are items on back-order, they will ship out whatever they have immediately, unless requested that we wait to ship it all complete. If a shipping fee charged on the original order, the back-order will not accrue any additional shipping fee even though being shipped on a separate day.	Stocks several national brand manufacturers. With every new customer- each sales person is expected to send an inventory adjustment to the purchasing dept. to increase levels. Back orders are acknowledged at the time of order entry. Customers who are set up to receive substitutions, will be given the option when the BO is first identified.	Is a distributor of cleaning supplies and equipment, packaging supplies and equipment, warewash and laundry supplies as well as full service department prepared to repair all makes and models o cleaning equipment. Backorders are created when an item is out of stock. They will ship as much of the order as they have product for and the items that is out of stock will backorder and ship once the item is received in.	LB carries a full line of over 20,000 Cataloged items. 98.5% of the items are next day delivery. Anything that is on back order usually is filled within 48 hours. If they can not fill it they will reach out to the end user within 24 hours.	Paper, trash liners, cleaning chemicals, supplies and tools, skin care. Safety items, cleaning equipment and services. Backorders-Corporate fill rate goal is 98%. If something is backordered, notification from Customer Service Rep. Remains in system and delivered when available at no extra charge. They do not sub products unless customer approves. Discontinued products-customer notified and options offered.	Uses sophisticated inventory models to ensure that the items are stocked in the right fulfillment centers and in the right quantities. Staples high order fill rate is 96.9%. When back order situations occur, customers receive an email notification alerting them of the delay and the expected delivery date.
Describe the billing/invoicing process for your company	Orders are invoiced the day after delivery or pick up. They can send that invoice automatically via email to two recipients of City's choosing. Can also send out a paper copy of the invoice in the mail if that is requested. Upon credit terms being approved, invoices are expected to be paid within 30 days.	Once delivery is made and signed for the by the location the Colman driver will send the electronic signature to the billing que. If there are no corrections or returns, invoices are created the very next morning. Invoices will be sent via US mail or electronically.	Invoices the customer once the product has shipped. Only billed for product that is received. Offer invoicing via US Mail, Fax or email.	They will continue to bill like that are currently doing as of today.	Invoice is generated once shipment has been delivered. Invoice is by order and location. They offer electronic invoicing (ACH) and payment processing and they do this with 50% of their customers.	Billing process is completely customizable to City's requirements. During implementation, they will assess the City's accounting practices and information capabilities to recommend best solution.
