Notes:										*Vendor can not meet insurance requirements.									e vendor submit	ted pricing of or 2016 cost. The		
			1									roquiree.								vendor took the estimated annual usage		
																					ton and entered	
																			1	amount in the 2		
																					3,000 x \$8.85 =	
																					ation was a sealed	
																		bid. The bid process does not allow for pricing errors to be corrected after the				
																			public bid opening, therefore, a "no bid"			
																				was recorded for the 2016 cost. The		
																				soliciation requires pricing for both 2015		
																				and 2016. Since the vendor did not		
																			provide costs for both years the bid is			
																			non-r	responsive and	could not be	
																				considered in the evaluation process.
