Dear City Council,

The Planning Department has been working with Parks on a tree removal permit for Innovation Hills. The permit will be posted to the public soon and the plans will be reviewed by the Planning Commission on June 20th.

In case you receive questions please note the following points:

1. We will be replacing at least as many trees as we remove
2. This tree removal permit covers all projects going forward over several years
3. We will obtain an estimate of trees already removed through previously constructed trail work and include that estimate in the replacements
4. We have completed a tree survey of the parking lot, playground, garden areas with our Forestry team prior to work done recently in that area
5. We will utilize our in-house tree expertise for additional surveys of project areas as we proceed

If you have any questions please contact Mrs. Roediger or myself.

Ken Elwert, CPRP | Director of Parks and Forestry
