Good morning, Paul. Just checking in to see if you know when the results of the speed study will be ready.

Thank you.

Seth,

Can you create a new traffic count point map per Jeremy's requested locations (Blue Dots on the attached map). Will need new count point reference #s.

Save to following file path:

I:\Eng\TRAF\TRAFFIC STUDIES\SPEED\2016\Lake Forest Dr_Willowood Sub_Sec 16\2019

Bud and Jeff,

Can you schedule a traffic count for this location (blue dots) for next week? Tuesday through Thursday (Oct 15th thru 17th).

Hi Paul,

The attached map indicates the locations for the speed study (blue dots). The locations correspond to [404 Lake Forest Rd](#) (which is just south of Sumac on Lake Forest Rd) and [350 Lake Forest Rd](#).

Please let me know if anything further is needed. If not, please let me know when you expect a study to be initiated.

Thank you.

Hi Jeremy,

Attached is the map location of where we placed the counters in 2016. It was mentioned that the HOA did not think these were at the appropriate locations. Where would you like the counters located this time? Please mark up on map. Generally, you want to avoid placing them at curves and try to place at the midpoint of a street, which is why we chose the locations we did previously.

Paul:

I am President of the Willowood Subdivision Board. We are requesting a traffic survey for Lake Forest Road in our subdivision (between Tanglewood and Spartan Rds) due to consistent excessive speeds and recent multiple accidents where cars have come up on yards. Please see the attached form. Our contact will be Jeremy Plenzler, who is copied on this email, along with the rest of our board.

Please let us know if you have any questions.

Thank you for your assistance.

Sincerely,

David Mollicone
President
Willowood Subdivision Board
