Legislative File No: 2014-0034`

TO: Mayor and City Council Members

FROM: Allan Schneck, P.E., Director Department of Public Services

DATE: February 10, 2014

SUBJECT: Purchase Authorization for Replacement Vehicles

REQUEST:

City Council is requested to authorize the purchase of four (4) new vehicles (replacements for 39-130, 39-175, 39-273, 39-274) from Red Holman Buick GMC, Westland, Michigan (2 vehicles) in the amount of \$45,680.00, LaFontaine Jeep, Saline, Michigan (1 vehicle) in the amount of \$19,547.00, Berger Chevrolet, Grand Rapids, Michigan (1 vehicle) in the amount of \$19,162.50.

REASON FOR PURCHASE:

The City's fleet equipment policy, which includes a replacement timetable, was created in 1988 to provide a responsible program and process for the practical maintenance and replacement of the City's vehicles and equipment.

Vehicle manufacturers allot a very small percentage of their order schedules for fleet vehicles. Order cut-off is typically slated for the first quarter of the model year. It is important that the City expedite the purchase of the vehicles to avoid missing the manufacturers order cut-off date. If the cut-off date is missed, the vehicles would have to be purchased at retail, or the vehicles in need of replacement could incur additional repair and or maintenance costs from not being replaced.

The City purchases vehicles through the Oakland County Cooperative Purchase Program. Additional cooperative contracts available for the City's use were reviewed to verify that the Oakland County Cooperative Purchase Program continues to offer vehicles to meet the City's needs at the lowest available cost. Vehicles are purchased through the Oakland County Cooperative Purchase program at a cost significantly lower than retail and surplus vehicles are disposed of through the Michigan Intergovernmental Trade Network on-line auctions by Purchasing. Fleet management best practices identify 20% as a target rate of return to receive from an initial investment of a vehicle. Over the past year utilizing the MITN on-line auction site the City has been realizing a 30% rate of return from the initial investment of the vehicle. Purchasing the vehicles at a significant discount and selling them at auction before significant operating costs are incurred has resulted in relatively low life cycle costs to the City.
