

**ROCHESTER HILLS
CHRYSLER JEEP DODGE**

June 20, 2013

To: City of Rochester Hills
Attn: City Council President

Subject: Traffic signal proposal for Drexelgate/Eddington

Dear Council Members,

I have been at my current business location for 36 years and have been in town long enough to see all the mega growth and major expansion of Rochester Road and its traffic count. At our business location, we see 6 to 12 accidents a year. Just 3 weeks ago we had an accident involving 4 vehicles with a customer turning out onto Rochester Road.

Without a light or timing traffic breaks, the situation is very difficult for our customers and employees.

In the years past, I was personally involved with attempting the realignment of Yorktowne for a traffic light but was defeated on the land acquisition by the master-plan rezoning.

I strongly urge the council to approve the new traffic signal for everyone's safety that uses Rochester Road between Avon and Hamlin Road.

Thank you for your consideration in this matter.

Sincerely,

George A. Fetsco
President
Rochester Hills Chrysler Jeep Dodge Ram Inc.
