Mayor, City Council Members, and Residents of the City of Rochester Hills, Michigan

We are pleased to submit the Comprehensive Annual Financial Report for the City of Rochester Hills (the "City") for the year ended December 31, 2010, in accordance with state law and the City Charter. This report was prepared by a team of City Staff led by the Accounting Division and consists of management's representation of the City's financial condition. Responsibility for the accuracy, completeness, and fairness of the financial data, including all disclosures, rests with the administration and management of the City of Rochester Hills. To the best of our knowledge and belief, the contents of this Comprehensive Annual Financial Report (CAFR) and the information presented are accurate in all material aspects, and are presented in a manner that fairly presents the financial position of the City.

In accordance with generally accepted accounting principals (GAAP) and regulations by the Governmental Accounting Standards Board (GASB), the Treasurer of the State of Michigan, the City Charter, and the Government Finance Officers Association (GFOA), management's discussion and analysis (MD&A) accompany the basic financial statements in the form of a narrative introduction, an overview, and analysis. This letter of transmittal is intended to be read in conjunction and complement the MD&A.

The accuracy of the report depends on a reliable accounting system and adequate internal controls. A comprehensive internal control framework is designed to protect both the City's assets from losses, theft, or misuse and to compile sufficient reliable information for the preparations of the financial statements of the City of Rochester Hills in conformity with GAAP. Since the cost of internal controls should be effective, the City's comprehensive internal control framework has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements.

Profile of Government - The City of Rochester Hills was incorporated in 1984 and is located in Oakland County, Michigan. The mayor and seven members of the City Council are elected to four-year staggered terms. Four of the council members are elected as district representatives and three members are elected as at-large representatives.

The population of the City is approximately 71,000 and comprises an area of 32.2 square miles. The City employs approximately 204 full-time employees and 60 contracted law enforcement officers. The City provides a full range of municipal services for the public's health, safety, welfare, and quality of life. City services include general administration, fire protection, contracted police protection, planning and zoning, engineering, building and code enforcement, cemetery operations and maintenance, park operations and maintenance, street construction and maintenance, storm drain improvements, and pedestrian pathway improvements and maintenance.

Water and sewer operations, maintenance, and capital improvements are provided from user charges that ensure adequate coverage of operating expenses, capital replacements, and payments on outstanding debt.

The City offers quality housing, two award-winning school districts, a hospital, major universities, a premium library, and a downtown offering a hometown atmosphere with excellent shopping and restaurants. The City has 1,000 acres of parkland affording the community with endless recreation opportunities. The Older Persons Commission and the Rochester Avon Recreation Authority offer world-class senior citizen, youth and adult activities for our residents. The City has a diverse business community and is situated in Automation Alley, the State's premier technology cluster and home to one of Michigan's eleven SmartZones. The City's business cluster includes a concentration of automotive, computer-based, future fuel and other research firms focused on advanced technologies.

Local Economy - The City of Rochester Hills is a desirable community and continues to be attractive to new residents and businesses. The economic condition of the City is sound and the City is among one of the lowest tax rates of communities in Oakland County. The current economic environment is creating challenges and new opportunities. The City continues to address the current economic downturn by conservatively forecasting revenues and expenditures five years into the future and by establishing multi-year budgets.

Michigan's economy continues to be under pressure brought about by historically high unemployment levels. The high level of unemployment has put excess stress on housing leading to a decline in housing values and a drop in new construction. Michigan's economy is not expected to recover for the next several years.

Revenue projections continue to be challenging for the City. The State of Michigan's budget troubles have forced the State to reduce its state-shared revenue program. In 2010, state-shared revenue decreased by \$240,535, with a total decline since 2001 of over \$2.1 million, or 33 percent. Due to the continued decrease in state-shared revenue, reduction in new building construction activities and the housing value decline, the City continues to be challenged in maintaining current levels of services with reduced revenue sources.

The local tax base of the City of Rochester Hills is diversified with residential property comprising 73.25 percent, commercial property comprising 15.68 percent, industrial property representing 5.76 percent, and personal property (business equipment, furniture, and machinery) consisting of 5.31 percent. No one taxpayer exceeds 1 percent of the total tax roll and the total of the top 10 taxpayers account for less than 6 percent of the total tax roll. The following table illustrates the specific diversity of the City's tax base:

Single-family homes	18,585 homes
Condominiums	3,896 units
Low-income/senior citizen (11 buildings)	1,415 units
Rental apartments (16 complexes)	4,590 units
Mobile home parks (2 locations)	1,392 sites
Shopping centers	46 centers
Hotel/motels (2 buildings)	236 rooms
Office space	104 buildings
Commercial	352 buildings
Light industrial	388 buildings

The principal source of the City's revenue is from property taxes. Property tax revenues are a result of applying the City's millage rate, set by City Council (within the restrictions of state law), to the taxable value of real and personal property located within the City. The tables below illustrate the diversity of the City's current tax base, including the LDFA district, which will be the basis for property tax revenue for the fiscal year 2010 budget:

	2009	
By Class	Taxable Value	Percent
Real Property	\$ 3,409,673,125	94.69%
Personal Property	191,244,010	<u>5.31</u> %
Total	<u>\$ 3,600,917,135</u>	<u>100.00%</u>
By Use		
Residential	\$ 2,637,547,585	73.25%
Commercial	564,580,740	15.68%
Industrial	207,544,800	5.76%
Personal Property	191,244,010	<u>5.31%</u>
Total	<u>\$ 3,600,917,135</u>	<u>100.00%</u>

Major Initiatives

Major Roads – Major road funding continues to plan, design, acquire right-of-way, construct and improve the 38 actual miles of major road network and coordinating improvements with the Road Commission of Oakland County and the State of Michigan's road system within the City limits. In 2010, the Major Road Fund had expenditures of \$1.6 million in capital outlay.

Local Streets – Funding for the City's local street system continues to be a challenge for the City. In 2010, the residents of Rochester Hills approved a local road millage that will generate tax revenue for the 2011 fiscal year. The City's Administration, working with the City Council, continues to work toward a long-term local street funding strategy that will address future funding needs. The City has 219 actual miles of local streets. In 2010, the General Fund made a substantial transfer of over \$2.7 million for street preservation and winter maintenance.

Special Police - The City's citizen funding committee is looking for funding solutions that will ensure a stable revenue source to support efficient and effective police services for the community. In 2010, the General Fund transferred almost \$3.9 million to the Special Police Fund to offset its operational expenditures.

Fire Fund – The Fire Fund continues to be committed to preserving life, protecting property, and preventing harm to our environment, for our residents, businesses and visitors through "Excellence in Service." The Fire Department continues to devote their efforts to community awareness, increase technology, staff training, and partnering with neighboring departments and agencies.

Capital Improvement Plan - In accordance with State of Michigan Planning Act 285, the Rochester Hills Planning Commission adopts a Capital Improvement Plan (CIP). The CIP is a planning tool that benefits the community and is meant to identify capital needs and goals of the City. The plan incorporates external infrastructure projects addressing drainage, major and local roads, parks, pathways, water and sewer, and city-owned facilities. The plan also includes internal infrastructure projects necessary to improve government operations that deliver services to our residents.

The 2011-2016 Capital Improvement Plan was adopted by the City of Rochester Hills Planning Commission. Currently, the commission is reviewing the 2012-2017 Plan as part of the 2012 budget process. Significant capital projects include:

- Drain extensions
- Pedestrian pathway rehabilitation and construction
- Major road construction
- Local street improvements and replacements
- Water and sewer extensions
- Park improvements and development
- City-wide facilities
- Fleet and technology replacement

Long-range Financial Planning - The City will continue to improve and build upon its long-range financial planning process. In 1995, the City developed a five-year financial model that continues to be a valuable tool for the City. As part of the budgeting process, the Fiscal Division updates the long-range forecasts of revenue and expenditures. The forecasts serve as the framework for budgetary decision-making by clarifying financial parameters and available resources and options. The model provides historical data, current budgeted City programs, and future financial capacity based on a set of future assumptions.

In addition to long-range financial planning, the City has adopted the following financial policies to help guide financial decision-making:

Debt Policy - Subject to applicable provisions of state statutes and the City Charter, the City Council, by resolution, may authorize the borrowing of money for any allowable purpose. The City's general obligation bonded debt is subject to a legal limitation of 10 percent of real and personal property taxable value. In addition, under current state statutes, the City's special assessment bond debt is subject to a legal limitation of 12 percent of real and personal property taxable value.

Pension and Postemployment Benefits - The City provides pension benefits for substantially all its full-time employees, members of the City Council, and paid on-call firefighters, through a defined contribution plan. Under a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings on contributions. The City makes monthly contributions to the plan and the plan is fully funded.

The City has established a retiree health care benefit program, which is comprised of a health savings plan and a supplemental benefit program. Full-time employees who have completed their probation period are eligible for the health savings plan. The City contributes to the health savings plan on a monthly basis and the plan is fully funded. The City has established a Retiree Health Care Benefit Trust to provide assistance for postemployment health care insurance premiums for certain eligible employees qualifying for the supplemental benefit program. In 2009, based on the 2008 Actuarial report, the City fully funded the supplemental benefit program.

Awards - The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Rochester Hills for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2009. This was the 22nd consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current Comprehensive Annual Financial Report will continue to conform to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

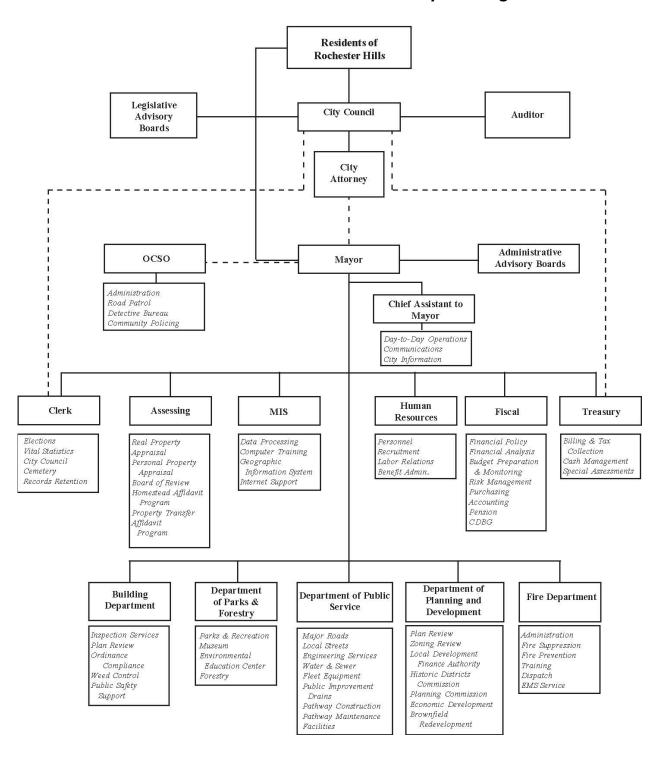

Acknowledgements - The preparation of this report in a timely basis could not have been accomplished without the efficient and dedicated staff of the Accounting Division, as well as invaluable support from Finance and assistance from the Treasury Department. We would like to express appreciation to all staff members of all departments who have assisted in the preparation of this report. We would like to credit the Mayor and City Council for the continued support and dedication to maintain the highest standards of management of the City of Rochester Hills. We thank all of them for their efforts and support.

We also express our sincere appreciation to the accounting firm of Plante & Moran, PLLC, which made a substantial contribution and assisted with the interpretation, guidance, review, and preparation of this document.

Respectfully submitted,

Pamela Lee City Accountant Keith Sawdon Finance Director

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Rochester Hills, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rochester Hills, Michigan (the "City") as of and for the year ended December 31, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The financial statements of the Rochester-Avon Recreation Authority were not audited in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rochester Hills, Michigan as of December 31, 2010 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The management's discussion and analysis and the budgetary comparison schedules are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. The introductory section, other supplemental information, and statistical section are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The budgetary comparison schedules, combining balance sheets, and combining statements of revenue, expenditures, and changes in fund balance have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. We have applied certain limited procedures to the management's discussion and analysis, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it. The introductory section and statistical section have not been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, accordingly, we express no opinion on them.

To the Honorable Mayor and Members of the City Council City of Rochester Hills, Michigan

In accordance with Government Auditing Standards, we have also issued our report dated April 13, 2011 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Plante & Moran, PLLC

April 13, 2011

Management's Discussion and Analysis

The City of Rochester Hills, Michigan's (the "City") management's discussion and analysis (MD&A) is a narrative overview of the City's financial activities and performance for the fiscal year ended December 31, 2010. Please read it in conjunction with the City's financial statements and notes to the financial statements.

Government-wide Statements

The MD&A is followed by the City's basic financial statements, which are comprised of two sections. The first two statements, entitled government-wide statement of net assets followed by the government-wide statement of activities, are financial statements that represent the City as a whole and provide a long-term perspective regarding the City's overall financial status. The statement of net assets includes all of the City's assets and liabilities as described in Notes 5 and 7, respectively, to the financial statements. The difference between the City's assets and liabilities is "net assets," which is a way to measure the financial health of the City as it fluctuates from one year to the next. The statement of activities reports all of the current year's earned revenue and accrued expenses, regardless of when cash is received or paid and represents the change in net assets from one year to the next.

The City's activities are separated into three categories: governmental and business-type activities, which represent the City's total financial performance, followed by the component unit financial information.

- The governmental activities column reports the City's basic services, including general administration, fire, police, public works, and parks and recreation.
- Business-type activities represent those activities for which the City charges fees to customers to cover the cost of services. The City's water and sewer system is the only business-type activity reported.
- The City has six discretely presented component units included in this report as follows: Local Development Finance Authority, Economic Development Corporation, Automation Alley SmartZone Authority, Brownfield Redevelopment Authority, Rochester-Avon Recreation Authority, and the Older Persons' Commission. Although legally separate, these component units are important because the City is financially accountable. Further information regarding the purpose of each component unit is found in Note 1 to the financial statements.

Management's Discussion and Analysis

Fund Financial Statements

The City's fund financial statements are similar to the historical presentation; however, this section individually discloses only those funds designated as the City's "major" funds. All nonmajor funds are aggregated into one column. These statements provide a higher level of detail than the government-wide statements and continue to illustrate how the services provided by the City were financed in the short term as well as what remains for future spending. The City has three types of funds that are used to keep track of specific sources of funding and spending for particular purposes as follows:

- Governmental Funds The majority of the City's basic services included in the
 governmental funds not only focus on how cash and other financial assets that can readily
 be converted to cash flow in and out, but also what year-end balances are available to
 finance future City programs. Because this information does not include the additional
 long-term focus of the government-wide statements, reconciliation statements are
 provided to explain the differences between the two methods of reporting. Pages 19 and
 22 illustrate this concept.
- **Proprietary Funds** Services for which the City charges customers fees are reported in this fund type. This fund type provides both the short and long-term financial information comparable to the business-type activity in the government-wide statements.

The City uses two types of proprietary funds. The Water and Sewer Fund is an Enterprise Fund, which typically charges residents usage fees and accounts for the cost of operations. The other proprietary fund type is Internal Service Funds, of which the City has four. These internal service funds are used to report activities that provide services to other City funds and activities, typically covered by charges to other City departments. Individual financial statements are presented for each fund in the section entitled "other supplemental information." The activity of the Internal Service Funds is eliminated in the government-wide statements to avoid duplicate reporting of revenues and expenses.

• Fiduciary Funds - The Trust Fund and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individual, private organizations, other governments and other city funds. The City is responsible for ensuring the assets reported in these funds are used for their intended purpose. The City's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. Fiduciary activities are excluded from the City's government-wide statements because these assets are not available to finance City operations.

Management's Discussion and Analysis

Financial Analysis of the City as a Whole

Statement of Net Assets - The City's combined net assets increased 4.0 percent, or \$14 million, from \$347.7 million in 2009 to \$361.7 million in 2010. The net assets for the governmental activity increased from \$219.3 million in 2009 to \$228.7 million in 2010, or \$9.4 million. The primary change in the governmental activities is due to the reduction of current liabilities of \$4.5 million or 12 percent and a reduction in long-term liabilities of \$4.9 million or 13.7 percent from \$30.5 million in 2009 to \$36 million in 2010. The governmental activities unrestricted net assets increased by \$5.5 million or 18 percent. The net assets of the business-type activity increased from \$128.4 million in 2009 to \$133.0 million in 2010, or \$4.6 million. The increase is attributed to increase of \$5.8 million in current assets and an increase of long-term liabilities of \$1 million. The unrestricted net assets increased by \$5.7 million, or 3.9 percent in the business-type activity.

The City's assets totaled \$433.2 million in 2010, up by \$5.5 million. This relates primarily to an increase in current assets of \$8.2 million or 5.5 percent. Capital assets decreased by \$2.2 million or 1 percent, which is attributed to the net of additions to capital assets of \$10 million and \$12.2 million of depreciation.

The City's total liabilities decreased \$8.5 million, or 11.0 percent, from \$80 million in 2009 to \$71.5 million in 2010. This relates to the reduction of bonded debt obligations in the governmental activities of \$3.9 million and a decrease of unearned revenue of \$4.2 million or 4 percent from the prior year.

Management's Discussion and Analysis

In condensed format, the table below shows the comparison of net assets (in millions) as of December 31, 2010 to the prior year:

	Govern	nmental	Busine	ss-type		
	Acti	vities	Activ	vities	То	tal
	2010	2009	2010	2009	2010	2009

Management's Discussion and Analysis

The City's revenue for governmental activity exceeded annual expenses by \$9.4 million, resulting in an increase in net assets as of December 31, 2010 to \$228.7 million. Annual revenue for business-type activity exceeded expenses by \$4.6 million, resulting in an increase in net assets to \$133.0 million. The following graphs illustrate the primary sources of revenue and expenses for the total primary government of the City of Rochester Hills for the year ended December 31, 2010:

Management's Discussion and Analysis

Governmental Activities - Of the City's total revenue generated for fiscal year 2010, property tax comprises the largest segment, \$31.7 million, or 61.3 percent. Property tax revenue decreased from the prior year by \$1.2 million, or 3.6 percent. Overall property taxable values have decreased while bottom line millage rates stayed the same. Of the grants and contributions revenue of \$8.1 million, \$3.4 million is associated with the State of Michigan Act 51 revenues for the major and local road systems. Much of the remaining revenue is associated with the governmental activity related to road system improvements in the amount of \$1.2 and contributed capital of \$2.4 million. State-shared revenue is a primary source of revenue for the City of which we received \$4.4 million which is a decrease from 2009 of \$93,000. Investment earnings decreased by \$.3 million or 25 percent. This is due to the low interest rate environment that has been experienced in past several years.

The majority of governmental expense is associated with the public safety function, which is \$18.1 million, or 42.8 percent of the total governmental activity. Public safety includes building, ordinance enforcement, fire, and police services. Public works expenses were \$12.2 million, or 28.5 percent of the governmental expenses. Public works activity includes roads, drains, forestry and pedestrian pathway improvements. Recreation and cultural expenses totaled \$4.6 million, or 10.8 percent that is related to park operations, youth and senior citizen programs and land purchased for green space. General government expenses total \$5.2 million, or 12.3 percent.

Business-type Activities - The City's business-type activities are recorded in the Water and Sewer Fund. The City provides water and sewer disposal purchased from the City of Detroit to residents. Of the City's charges for service revenue, the majority is generated from charges passed on to residents, which is \$29 million. Charges for service are offset by water and sewer operational expenses of \$27.1 million, or 39 percent of the City's total expenses, and after capital contributions, the business activity has an increased net change in assets of \$4.6 million.

Financial Analysis of the City's Funds - An analysis of the City's major funds follows the government-wide financial statements. The fund level financial statements provide detailed information on the most significant funds, not the City as a whole. In addition to state legislative requirements to maintain separate funds for Act 51 major and local road money, the City creates funds to administer certain dedicated dollars and demonstrate accountability to the citizens for special tax millages voted by citizens and earmarked bond proceeds. The City's major funds for fiscal year 2010 include the General Fund, the Major Road Fund, the Local Road Fund, the Fire Fund, and the Special Police Protection Fund.

The General Fund's fund balance increased from \$15.1 million to \$19.2 million or a total increase of \$4.1 million. The net increase is a combination of a decrease in property taxes, an

Management's Discussion and Analysis

increase in charges for service, a decrease in general governmental expenses and a decrease in transfers to other funds.

The Major Road Fund fund's balance increased from \$15.3 million in 2009 to \$16.1 million in 2010. The total revenues of \$4.8 million exceeded the totals expenses of \$4.1, or \$.7 million.

The Local Street Fund fund's balance increased slightly from \$2.9 million in 2009 to \$3.5 million in 2010. Local Street's revenues of \$4.3 million exceeded the expenses of \$3.7, or \$.6 million. General Fund made a transfer of \$2.7 million to the Local Street Fund for local street improvements and maintenance.

The Fire Fund fund's balance increased slightly from \$1.9 million in 2009 to \$2.6 million in 2010. The revenues exceed the cost of fire operations by \$.7 million. No transfers were made to the Fire Capital Fund in 2010.

The Special Police Protection Fund fund's balance increased approximately by \$179,000. The cost of police operations were \$8.8 million and the total revenue was \$9 million which included a transfer from General Fund of \$3.9 million.

There was very little activity in the capital project funds in 2010. The Pathway Construction Fund had capital outlay of \$1.3 million that decreased the fund balance from \$26 million in 2009 to 16.1 million in 2010.

General Fund Budgetary Highlights - The Mayor and City Administration continuously monitor budget performance and the City Council amends the budget to reflect current projections throughout the year. The 2010 original budget for revenues exceeded the projections and the expenses were below the original budget projections. At year-end the actual revenues of \$26.1 million exceeded the actual operations of \$13.8 million and transfers to other funds of \$8.3 million by approximately \$4 million.

Revenue projections were \$25.9 million compared to actual revenues of \$26.1, a difference of approximately \$245,000. The increase in budget was due to building permits and fees projected of approximately \$600,000 and a decrease in projected interest earnings of approximately \$400,000

Overall, the General Fund expenditures were below the original budget by \$3.8 million or 14.6 percent. There was a decrease of transfers out to the other funds of approximately \$2.4 million or 22%, personnel costs were down by \$790,000 or 7%, supplies and materials were down by \$89,000 or 21.9%, and professional services were down by \$429,000 or 11% of the original budget.

Management's Discussion and Analysis

Capital Asset and Debt Administration - The City of Rochester Hills has \$279.2 million invested in a broad range of capital assets including land, building, technology equipment, fire equipment, operating equipment, water and sewer lines, and infrastructure for its governmental and business-type activities as of December 31, 2010. This reflects a decrease in net capital assets of \$2.2 million during the year. For detailed information on Capital Assets refer to Note 5.

Debt Administration - The City of Rochester Hills' debt rating is excellent. Standard and Poor's and Finch Ratings recently affirmed the rating of AAA for the City. The City's total bond indebtedness at December 31, 2010 is \$33.0 million at December 31, 2010. For detail information on outstanding debt refer to Note 7.

Economic Factors and New Year's Budget and Rates – The City's taxable value is expected to decline -11.3% or \$406 million for fiscal year 2011 due to economic conditions. The City's total millage rate of 9.7060 is unchanged for fiscal year 2011. There was a slight decrease (0.02125)

Management's Discussion and Analysis

in the General Fund's millage rate from 3.7545 mills in 2010 to 3.7242 mills for fiscal year 2011. The total Debt Funds millages decreased from 1.1535 mills in 2010 to .8293 mills in 2011, a total decrease of 0.3242 mills. The City's total millage rate is among the lowest in Oakland County. Taxes account for 43 percent of governmental fund revenues and 50 percent of the budgeted General Fund revenues in the fiscal year 2011 budget. General Fund tax revenue is estimated at \$11.6 million for fiscal year 2011.

The City's Major Road Fund anticipates depleting an estimated \$3.1 million of fund balance for fiscal year 2011 that will be utilized for construction, rehabilitation, and improvements to the major road system. The Local Street Fund continues to search for a dedicated funding source. The City Council and administration are striving to develop a long-term road fund policy that will address future local street needs. A planned transfer from the General Fund of approximately \$1.7 million and \$1.1 million from the Major Road Fund will help support local street preservation and maintenance for fiscal year 2011. The Fire Fund fund's balance is projected to remain unchanged in fiscal year 2011 due to the elimination of transfers to the Fire Capital Fund. No significant changes or purchases are projected from the Fire Fund. The Special Police Fund's fund balance is unchanged at \$536 thousand and in fiscal year 2011 a transfer from the General Fund of \$4.1 million is planned to support the projected \$8.8 million in police service expenditures.

Capital projects for governmental-type funds for fiscal year 2011 include major road, local streets, storm drain, pathway, computer related equipment and vehicles.

The Water and Sewer Fund's primary focus in fiscal year 2011 will be on effective operations and maintenance of the current water and sewer systems and to utilize the City's Geographic Information System and the Asset Management system to determine lifecycle cost of water and sewer facilities.

In response to a continuing economic down turn, the fiscal year 2011 budget brought its expenditures in line with its revenue stream by redesigning service delivery systems and by reducing costs, including personnel costs, city-wide.

Contacting the City's Management - This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. Questions concerning any of the information provided in this report, or requests for additional information, should be addressed to the City of Rochester Hills, Accounting Division, 1000 Rochester Hills Drive, Rochester Hills, MI 48309.

Governmental Funds

Reconciliation of the Statement of Revenue, Expenditures and Changes in Fund Balances to the Statement of Activities Year Ended December 31, 2010

Net Change in Fund Balances - Total Governmental Funds

¢	5,932,33	5
Ų	J,JJZ,JJ	J

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; in the statement of activities, these costs are allocated over their estimated useful lives as depreciation

Capital outlay expenditures

Capital outlay expenditures 3,261,641

Depreciation expenses (6,311,440)

Net book value of capital assets disposed -

The donation of capital assets is not considered a current financial resource and is not reported as revenue in the governmental funds 1,404,903

Special assessment revenues are recorded in the statement of activities when the assessment is set; they are not reported in the funds until collected or collectible within 60 days of year end

(68,032)

Revenue reported in the statement of activities that does not provide current financial resources and is not reported as revenue in the governmental funds

985,220

Accrued interest payable is recorded when due in governmental funds; in addition, bond issuance costs are amortized during the life of the bond

(66,578)

Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt)

4,848,247

The change in accumulated employee annual leave and vacation pay, as well as estimated general liability are recorded when earned in the statement of activities

2,167

The change in the net OPEB obligation is not included in governmental funds

(5,477)

Internal Service Funds are also included as governmental activities

(583,435)

Change in Net Assets of Governmental Activities

\$ 9,399,551

Noncash Investing, Capital, and Financing Activities - During the year ended December 31, 2010, the Water and Sewer Fund received approximately \$650,000 of lines donated by developers. In addition, Oakland County constructed \$3.9 million of sewer lines for the Oakland Macomb Interceptor project, of which the federal government subsidized \$2.0 million and the City incurred long term debt of \$1.9 million. The Internal Service Funds, specifically the Facilities Fund, received a \$250,000 donated building. The Water and Sewer Fund and the Internal Services Funds recognized \$1,489 and \$18,635, respectively, of unrealized gain in the market value of securities.

Note 1 - Summary of Significant Accounting Policies

The accounting policies of the City of Rochester Hills, Michigan (the "City") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the City of Rochester Hills, Michigan:

Reporting Entity

The City of Rochester Hills, Michigan is a municipal corporation that is governed by an elected seven-member council. The City provides the following services as authorized by its charter: public safety (fire protection and contract police service), street maintenance, water and wastewater distribution, parks and recreation, public improvements, planning and zoning, and general administrative services. The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Although blended component units are legally separate entities, in substance, they are part of the City's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City (see discussion below for description).

Joint Ventures

The City is a member of the Paint Creek Trailways Commission, which was organized in 1981 for the purposes of owning, developing, maintaining, and otherwise operating certain non-motorized public trails within the jurisdiction of the participating governmental organizations. The participating communities, which include Orion Township (23 percent), City of Rochester (22 percent), City of Rochester Hills (24 percent), and Oakland Township (31 percent), provide annual funding for its operations. During the current year, the City contributed \$19,054 for its operations. The City is unaware of any circumstances that would cause an additional benefit or burden to the participating governments in the near future. The City does not have an equity interest in the joint venture. Complete financial statements for the Paint Creek Trailways Commission can be obtained from the administrative offices at 4393 Collins Road, Rochester, MI 48306.

Blended Component Units - The Rochester Hills Building Authority is governed by a five-member board that is appointed by the City Council. Although it is legally separate from the City, it is reported as if it were part of the primary government because its primary purpose is to finance and construct the City's public facilities.

Notes to Financial Statements December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

Discretely Presented Component Units - The following component units are reported within the component unit column in the government-wide financial statements. They are reported in a separate column to emphasize that they are legally separate from the City.

- a. The Local Development Finance Authority (LDFA) is governed by a 13-member board, of which seven members are appointed by the mayor and confirmed by the City Council while the other six members are appointed by the legislative bodies of other taxing authorities. The LDFA was created to provide a means for financing infrastructure improvements within a certain area of the City on behalf of the City and other entities. The City has the ability to impose its will upon LDFA. In addition, the City Council sets the annual budget for LDFA and LDFA is presented as a government fund type. The financial statements can be obtained from its administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- b. The Economic Development Corporation (EDC) is governed by a 9-member board, appointed by the mayor and confirmed by the City Council. The EDC was created to provide a means and method for encouragement and assistance of industrial and commercial enterprises in relocating, purchasing, constructing, improving, or expanding within the City. The City of Rochester Hills, Michigan has the ability to impose its will upon the EDC. The EDC may issue industrial revenue bonds as a means of providing financing for certain enterprises. In addition, the City Council sets the annual budget for EDC and EDC is presented as a government fund type. The financial statements can be obtained from its administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- c. The Rochester-Avon Recreation Authority (R.A.R.A.) was organized in 1971 for the purpose of providing extensive and varied recreational programs for residents residing within the jurisdiction of the participating governmental organizations. Along with the City of Rochester Hills, Michigan, which is 43 percent of participating members, City of Rochester (29 percent), Rochester Community School District (14%) and Avondale School District (14%) are also member units of the R.A.R.A.

The governing body of the R.A.R.A. consists of a total of 7 members that include one Council member and two Council-appointed residents from the City of

Note 1 - Summary of Significant Accounting Policies (Continued)

Rochester Hills, one Council member and one Council-appointed resident from the City of Rochester, one Board-appointed member from the Rochester Community Schools and one Board-appointed member from the Avondale School District. There is a financial benefit/burden relationship between R.A.R.A. and the City of Rochester Hills. R.A.R.A.'s financial statements can be obtained from its administrative offices at 108 East Second Street, Rochester, MI.

d. The Older Persons' Commission (O.P.C.) was organized in 1983 for the purpose of providing activities and services for older persons residing within the jurisdiction of the participating governmental organizations. Along with the City of Rochester Hills, Michigan, which is a 68 percent participating member, Oakland Township (20 percent) and the City of Rochester (12 percent) are also member units of the O.P.C.

The governing body of the O.P.C. consists of two City Council members and two Council-appointed older persons from the City of Rochester Hills, one City Council member, and one Council-appointed older person from the City of Rochester, and one board member and one board-appointed older person from Oakland Township. There is a financial benefit/burden relationship between O.P.C. and the City of Rochester Hills. O.P.C.'s financial statements can be obtained from its administrative offices at 650 Letica Dr., Rochester, MI.

- e. The Brownfield Redevelopment Authority (the "Brownfield Authority") was created, pursuant to Public Act 381 of 1996, to promote revitalization of environmentally distressed areas within the 32.2 square mile boundary of the City. The Brownfield Redevelopment Authority is governed by a seven-member board, appointed by the mayor and confirmed by the City Council. The City has the ability to impose its will on the Brownfield Authority. In addition, the City Council sets the annual budget for the Brownfield Authority. The Brownfield Authority is presented as a government fund type and its financial statements can be obtained from its administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- f. The Automation Alley SmartZone Authority was created to foster new economic growth and development by establishing clusters of technology companies. The program also seeks to develop relationships between these businesses and

Notes to Financial Statements December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

universities by providing businesses resources and accessibility to university facilities for the purpose of commercializing research. The Automation Alley SmartZone Authority is governed by a 13-member board, which is appointed by the mayor and confirmed by the City Council. The City of Rochester Hills has the ability to impose its will upon the Automation Alley SmartZone and the City Council sets the annual budget for the SmartZone. The Authority's financial statement can be obtained from its administrative office at 1000 Rochester Hills Dr, Rochester Hills, MI.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Note 1 - Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund, fiduciary fund, and component unit financial statements. The agency fund has no measurement focus. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The following major revenue sources meet the availability criterion: state gas and weight tax revenue, district court fines, and interest associated with the current fiscal period. Conversely, special assessments, certain federal grants, and funds due from Oakland County will be collected after the period of availability; receivables have been recorded for these, along with a "deferred revenue" liability.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

The City reports the following major governmental funds:

- a. The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- b. The Major Road Fund accounts for the State of Michigan Public Act 51 monies that are used to construct and maintain major road systems.
- c. The Local Street Fund accounts for the State of Michigan Public Act 51 monies that are used to construct and maintain local streets system.

Notes to Financial Statements December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

- d. The Fire Fund accounts for all revenue and expenditures for citywide fire operations, including millage collection.
- e. The Special Police Protection Fund accounts for the special millage for City police protection contracted with Oakland County.

The City reports the following major proprietary fund:

The Water and Sewer Fund records maintenance and operations for water and sewer this is provided for City residents and businesses that is financed primarily through user charges.

Additionally, the City reports the following fund types:

- a. Internal Service Funds account for costs of operating and maintaining the land, buildings, machinery, equipment, technology, and vehicle purchases of the City, as well as risk management services provided to other departments of the City on a cost reimbursement basis.
- b. The Trust and Agency Funds account for assets held by the City in a trustee capacity for employee postemployment health care benefits and tax collections of the City and other taxing jurisdictions, as well as payroll related liabilities. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. At Rochester Hills, the Agency Funds account for tax collections of the City and other taxing jurisdictions, as well as payroll related liabilities.

Private sector standards of accounting issued prior to December 1, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The City has elected not to follow private sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer function and various other functions of the

Note 1 - Summary of Significant Accounting Policies (Continued)

City. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the proprietary funds relates to charges to customers for sales and services. Capital and lateral charges are intended to recover the cost of the infrastructure and are recognized as non-operating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

Property Tax Revenue

Property taxes are levied on each December 1 on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The City's 2009 tax is levied and collectible on December 1, 2009 and is recognized as revenue in the year ended December 31, 2010, when the proceeds of the levy are budgeted and available for the financing of operations.

The 2009 taxable valuation of the City totaled approximately \$3.6 billion (of which approximately \$61.1 million and \$.9 million is captured by the LDFA and Brownfield Authority, respectively), on which taxes are levied as follows:

Function	Mills	Dollars
General operating purposes	3.7545	\$ 13,501,499
Fire operating services	1.8000	6,472,952
Police protection services	1.2083	4,345,149
OPC operating and transportation	0.3294	1,184,550
R.A.R.A. operating	0.1950	701,236
Pathway maintenance	0.1858	668,153
Debt service	1.1535	4,148,084
Green space preservation	0.2972	1,068,756

Notes to Financial Statements December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

These amounts are recognized in the respective General, Special Revenue, and Debt Service Funds financial statements as tax revenue. In addition, there are .7823 mills that are collected by the City for library operations.

Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Investment income from pooled investments is generally allocated to each fund using a weighted average.

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." All trade and property tax receivables are shown as net of allowance for uncollectible amounts.

Inventories and Prepaid Items - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets - Assets have been restricted in the primary government, as they represent the assets held by Oakland County to be applied against future payment obligations of the City. See Note 8 for additional discussion.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, water and sewer mains, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$3,000 and an estimated useful life in excess of one year. Such assets are recorded at historical

Note 1 - Summary of Significant Accounting Policies (Continued)

cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Assets are depreciated using the straight-line method over the following useful lives:

Roads	20 years
Drainage flow rights	40 years
Water and sewer distribution systems	50 years
Buildings	50 years
Land improvements	10 to 15 years
Building improvements	10 years
Other tools and equipment	5 to 10 years
Vehicles	5 to 12 years
Office furnishings	3 to 5 years

Compensated Absences (Vacation and Annual Leave) - It is the City's policy to permit employees to accumulate earned but unused vacation and annual leave pay benefits. Historically, these benefits have been liquidated by the General Fund or other operating funds to which each employee is assigned. All vacation and annual leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year-end.

Long-term Obligations - In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while

Notes to Financial Statements December 31, 2010

Note 1 - Summary of Significant Accounting Policies (Continued)

discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Other Postemployment Benefit (OPEB) Costs – The City offers retiree healthcare benefit to retirees. The City receives an actuarial valuation to compute the annual required contribution (ARC) necessary to fund the obligation over the remaining amortization period. In the governmental funds, OPEB costs are recognized as contributions are made. For the government-wide statements and proprietary funds, the City reports the full accrual costs equal to the current year required contribution, adjusted for interest and "adjustment to the ARC" on the beginning of year unpaid amounts, if any.

Fund Equity – The fund balance classifications are reported primarily on the extent to which a government is bound to observe constraints imposed on the use of the resources reported in governmental funds. The fund balances are classified as nonspendable, restricted, committed, assigned and unassigned.

Nonspendable fund balance represents amounts that are not in a spendable form. The City's nonspendable fund balance represents inventories. In the fund financial statements, governmental funds report restrictions on fund balances for amounts that are legally restricted by outside parties for a specific purpose. Committed fund balance represents funds formally set aside by the City Council for a particular purpose. The use of committed funds would be approved by City Council through the budget process.

The City Council has adopted, by ordinance, a Budget Stabilization Fund in which the City Council may at its discretion set aside all or any part of a surplus generated in General Fund resulting from the excess of revenue in comparison to expenditures. An appropriation from the Budget Stabilization Fund would require an approved resolution by a two-thirds vote of the City Council. Per ordinance, the Stabilization Appropriation may be used for the following conditions: to cover a General Fund deficit, to cover expense arising from a natural disaster or to prevent a reduction of staff any time in a fiscal year or during the budget preparations for the next fiscal year when revenues or estimated revenues do not cover actual or estimated expenditures.

Note 1 - Summary of Significant Accounting Policies (Continued)

Assigned fund balance would represent tentative management plans that are subject to change which at the present time the City does not have any assigned fund balance. The City's intent would be to spend uncommitted/unassigned funds prior to the use of committed funds. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

To preserve a sound financial system and to provide a stable financial base, the City Council adopted a Fund Balance Policy. At a minimum, the fund balance of General Fund and Special Revenue Funds will be maintained at twenty percent of operating revenues. The City Councils Fund Balance Policy included that retained earnings of Internal Service Funds will be maintained at a minimum of twenty percent of operating revenues and the Water and Sewer Fund's retained earnings be maintained at a minimum of twenty five percent of operating revenue. Funds with a special purpose (Debt Service, Perpetual Care, Capital, Tree Fund, and Green Space Preservation) are exempted from this policy due to the nature of their individual function.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note 2 - Stewardship, Compliance, and Accountability

Construction Code Fees - The City oversees building construction, in accordance with the State's Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative shortfall generated since January 1, 2000 is as follows:

Notes to Financial Statements December 31, 2010

Note 2 - Stewardship, Compliance, and Accountability (Continued)

Cumulative shortfall at January 1, 2010		\$ (4,779,429)
Building permit revenue		1,410,615
Related expenses:		
Direct expenses	\$ 1,412,867	-
Estimated indirect costs	 211,930	 1,624,797
Current year shortfall		 (214,182)
Cumulative shortfall at December 31, 2010		\$ (4,993,611)

Note 3 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. In addition, the Act allows the City to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, with maturities not exceeding more than 270 days from the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade at the time of purchase; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

Legislation was passed and signed by the Governor that allows a Municipality the ability to invest in CDARS (Certificate of Deposit Registry Service). This program allows each public entity to have up to \$50 million of FDIC coverage of Certificate of Deposits (CD's) through one bank, at one rate and on one statement. A participating bank would accept a deposit and invest it in certificate of deposits in increments of under \$250,000 (principal and interest) with however many participating institutions it takes to maintain total FDIC insurance coverage. The FDIC Deposit Insurance Coverage limits for each FDIC insured bank has been increased from \$100,000 to \$250,000 effective October 3, 2008 through December 2009. As of May 20, 2009 FDIC insured institutions are now insured up to at least \$250,000 per depositor. The funds remain local with the primary Michigan bank trading funding (CD) deposits with other banks across the country. This risk

Note 3 - Deposits and Investments (Continued)

mitigation method comes at a time when municipalities are seeking greater insured coverage of their investment assets. By December 31, 2009, the City transformed its entire Certificate of Deposit portfolio to fully FDIC insured and remains fully insured as of December 31, 2010.

The City has designated 13 banks for the deposit of its funds. The investment policy adopted by the City in accordance with Public Act 196 of 1997 has authorized investment in all investments permissible under Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended), as listed above. The City's deposits and investment policies are in accordance with statutory authority.

The City's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Risk on Investments

The City's Investment Policy states that "The City will minimize custodial risk by: Using financial institutions and brokers meeting pre-established criteria; Holding all securities in the name of the City of Rochester Hills." The City's Annual Depository Resolution lists qualified Broker/Dealer/Safekeeping institutions for the purchase and safekeeping of commercial paper and US Government obligations. All security transactions entered into by the city are conducted on a delivery-versus-payment (DVP) basis, held by a third-party custodian, and evidenced by a safekeeping receipt. As of December 31, 2010, \$28,451,608 in U.S. Government obligations are held in third-party safekeeping in the City's name. The City's three Investment Pool Accounts have their securities safe kept with a third-party selected by the counterparty. The pool's securities are held in trust for the participants of the fund and are not available to the counterparty should the counterparty happen to fail.

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's deposit policy for custodial credit risk requires that all financial institutions utilized by the City maintain an office within the state of Michigan and meet certain requirements and financial criteria. At year-end, the City had no bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The City believes that due to the current economic climate and the availability of the CDARS program, it has become prudent to have FDIC insure our Certificate of Deposits portfolio up to the \$50 million dollar

Notes to Financial Statements December 31, 2010

Note 3 - Deposits and Investments (Continued)

limit. Bank of America participated in the FDIC Transaction Account Guarantee Program, which provided coverage for non-interest bearing transaction deposit accounts at FDIC insured institutions until December 31, 2012. Therefore, the City's non-interest bearing checking account was fully insured through December 31, 2010. Due to the size and nature of our investment portfolio, dollars amounts of cash deposits and the limits of FDIC insurance dollar amounts of cash deposits and the limits of FDIC insurance, it may be impractical at times to insure all deposits. As a result, the City evaluates each financial institution with which it has funds on deposit and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories. The City of Rochester Hills began purchasing CDARS in January 2009 as another means of mitigating our uninsured exposure with certificates of deposits.

The component units had no bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized.

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The City's investment policy does not restrict investment maturities to the extent the funds are matched to a specific cash flow other than commercial paper that can only be purchased to a maximum maturity of 270-days. Unless matched to a specific cash flow, the City will directly invest in securities maturing more than two years from the date of purchase. The City's investment policy minimizes the risk that the market value of the securities in the portfolio will fall due to changes in the general interest rate by structuring the maturities of the portfolio to meet cash requirements of ongoing operations, thereby avoiding the need to liquidate securities prior to maturity. This is done by investing operating funds primarily in short-term securities and investment pools and only purchasing securities with the intent to hold to maturity. At year-end, the average maturities of investments are as follows:

Note 3 - Deposits and Investments (Continued)

Investments	Market Value	Weighted Average Maturity
Government agency securities	\$ 28,496,610	349 days
MI CLASS Investment Pool	18,582,078	1 day
Federated Investment Pool	3,517,768	1 day
Ambassador Capital Investment Pool	9,028,757	1day

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The City's investment policy minimizes credit risk by limiting investments to the safest types of securities, prequalifying the financial institutions and intermediaries with which the City does business, and diversifying the portfolio so potential losses on individual securities will be minimized. All of the investment pool accounts are Stable NAV Government Investment Pools that seek to preserve the value of the investment at \$1.00 per share. Since the City began using the listed investment pools, the NAV's have been \$1.00 per share. As of year-end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investments	Market Value		Rating	Rating Organization	
Government agency securities	\$	28,496,610	AAA	Standard and Poor's	
MI CLASS Investment Pool		18,582,078	AAAm	Standard and Poor's	
Federated Investment Pool		3,517,768	AAAm	Standard and Poor's	
Ambassador Capital Investment Pool		9,028,757	AAAm	Standard and Poor's	

Concentration of Credit Risk

The City's investment policy minimizes the risk inherent in placing a large portion of the portfolio with a single security issuer by limiting such placement to a percentage of the total portfolio, defined as securities plus deposits and cash equivalents. The diversification by security issuer is limited to: 5% for Commercial Paper issuers; 5% for Banks and Savings & Loan issuers; 20% for U.S. Government Agency issuers; 25% for Individual Pool Accounts; and, 100% for U.S. Treasury Obligations.

Notes to Financial Statements December 31, 2010

Note 4 - Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds and the governmental activities also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

	Unavailable		Unearned	
Property taxes	\$	-	\$	28,137,516
Special assessments		227,484		-
State-shared revenue		823,732		-
Federal grant		1,071,905		-
Other		122,024		43,953
Total deferred revenue	\$	2,245,145	\$	28,181,469

Note 5 - Capital Assets

Capital asset activity of the City's governmental and business-type activities was as follows:

Sewer	 1,727,585
Total business-type activities	\$ 3,957,034

Notes to Financial Statements December 31, 2010

Note 5 - Capital Assets (Continued)

Construction Commitments - The City has active projects at year-end. The projects include various road infrastructure improvements and water and sewer projects. At year-end, the City's commitments are as follows:

	Total Contract			Remaining
	Amount			Commitment
Road improvements	\$	6,693,732	\$	1,508,224
Drain and pathway improvements		1,416,198		203,362
Facility improvemetns		275,965		79,616
Water and sewer infrastructure		3,974,930		2,781,385
Total	\$	12,360,825	\$	4,572,587

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Receivable Fund	Payable Fund		Amount
Major Roads Major Roads	Public Improvement - Drains Pathway Construction	\$	141,293 64,343
	Total	<u>\$</u>	205,636

This balance results from the time lag between the dates that payments are made between funds.

Notes to Financial Statements December 31, 2010

Note 6 - Interfund Receivables, Payables, and Transfers (Continued)

Interfund transfers reported in the fund financial statements are comprised of the following:

General Fund	Major Road Fund Local Street Fund Special Police Fund Nonmajor governmental funds Internal Service - Facilities Fund	\$ 352,389 2,670,280 3,869,040 953,660 436,200
	Total General Fund	8,281,569
Major Road Fund	Local Road Fund	400,360
Local Street Fund	Nonmajor governmental funds	509,338
Special Police Fund	Internal Service - Facilities Fund	349,600
Nonmajor governmental funds	General Fund Nonmajor governmental funds	 28,283 575,596
	Total nonmajor governmental funds	603,879
Internal Service - Facilities Fund	Nonmajor governmental funds Internal Service - Management Information Systems	634,590 24,370
	Total nonmajor governmental funds	658,960
	Total	\$ 10,803,706

The transfers from the General Fund and non-major governmental funds to the Major and Local Road Funds, Special Police Protection Fund, additional non-major governmental funds, and Facilities Fund represent the use of unrestricted resources to finance those programs, in accordance with budgetary authorizations; the transfer from the Local Street Fund and Special Police Fund to non-major governmental funds represents the movement of resources to be used to service debt; and the transfer from nonmajor governmental funds represents resources for pathway improvements, computer related equipment and used to service debt.

Notes to Financial Statements December 31, 2010

Note 7 - Long-term Debt

The City issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the City is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the district) are received. Long-term obligation activity can be summarized as follows:

	Beginning Balance Ad		Additions	Additions Reductions		Ending Balance		ne Within
Governmental activities:								
General Obligation Bonds:								
Building Authority Bonds, Series 2002 payable through 2011 with interest								
at 3.12% to 4.25%	\$	7,400,000	\$ -	\$	(7,000,000)	\$	400,000	\$ 400,000

Notes to Financial Statements December 31, 2010

Note 7 - Long-term Debt (Continued)

During the year, the Oakland-Macomb Interceptor Drainage District (OMID) issued county bonds in the amount of \$6.7 million of which \$866,484 is the City's share. The OMID Series 2010B bond proceeds are being used to improve and repair the OMID Interceptor. These bonds were issued as Federally Taxable Recovery Zone Economic Development Bonds and are eligible to recover tax credit payments from the United States Treasury equal to 45 percent of the interest payable on the bonds. The City's total tax credit over the next 20 years will be \$254,714.

Also, the OMID was approved for \$42 million of loans in which \$16 million of the debt will be federally forgiven and \$26 million are loans from the Michigan State Revolving Fund (SRF) (OMID Series 2010A). The City's portion of the forgiven debt has been recognized as contributed capital in the amount of \$2.1 million. As of year end the City's portion of the draws from the SRF was \$1 million.

Advance and Current Refundings

During the year, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. At December 31, 2010, \$13,920,000 of current year bonds outstanding is considered defeased. Additionally, in prior years, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. At December 31, 2010, \$1,796,786 of prior bonds outstanding is considered defeased.

The total considered defeased as of December 31, 2010 is \$15,716,786. Accordingly, the trust accounts' assets and liabilities for the defeased bonds are not included in the basic financial statements.

Future Revenues Pledged for Debt Payment

County Contractual Obligations - The above contractual obligations to the County are the result of the County issuance of bonds on the City's behalf. The City has pledged to raise property taxes, to the extent permitted by law, if necessary to fund the obligation to repay the County. Proceeds from the County bonds provided financing for the construction of drains described above. The remaining principal and interest to be paid on the bonds is \$7,439,616. During the current year, net revenue generated by property tax millages was \$2,108,172 compared to the annual debt requirements of \$2,143,153.

Notes to Financial Statements December 31, 2010

Note 7 - Long-term Debt (Continued)

Contract Bond - The City has pledged substantially all revenue of the Water and Sewer Fund, net of operating expenses, to repay the above water and sewer contract bond. Proceeds from the bonds provided financing for the extension of water and sewer mains. The bonds are payable from the net revenues of the water and sewer system. The remaining principal and interest to be paid on bonds totaled \$5,323,739. During the year, net operating revenues of the system were approximately \$6,016,738 compared to the annual debt requirements of \$283,636.

Note 8 - Restricted Assets

Assets held at the County represent the City's unspent portion of bond proceeds held for the improvement of the water and sewer system in the amount of \$646,542. The County holds these monies to apply against future water and sewer system construction for the City. Oakland County has invested these monies and allocated interest earned as an increase to the amount due the City.

Note 9 - Risk Management

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The City has purchased commercial insurance for medical claims and participates in the Michigan Municipal League risk pool program for workers' compensation claims and the Michigan Municipal Risk Management Authority risk pool for claims relating to general liability, motor vehicles, and comprehensive property damage. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

The Michigan Municipal Risk Management Authority (the "Authority") risk pool program operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk-sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the

Notes to Financial Statements December 31, 2010

Note 9 - Risk Management (Continued)

Authority that the Authority uses to pay claims up to the retention limits, the ultimate liability for those claims remains with the City.

The City estimates the liability for general claims that have been incurred through the end of the fiscal year, including claims that have been reported as well as those that have not yet been reported. These estimates are reported in the Insurance (Internal Service) Fund. Changes in the estimated liability for the past two fiscal years were as follows:

	 2010	-	2009
Estimated liability - Beginning of year	\$ 117,688	\$	103,473
Estimated claims incurred, including changes in estimates	(32,443)		44,653
Claims payments	 (32,063)		(30,438)
Estimated liability - End of year	\$ 53,182	\$	117,688
Estimated liability for claims reported	\$ 35,182	\$	24,665
Estimated liability for claims incurred but not reported	 18,000		93,023
Total estimated liability	\$ 53,182	\$	117,688

Note 10 - Defined Contribution Pension Plan

The Rochester Hills Group Pension Plan, which is administered by the City, provides pension benefits for substantially all of its full-time employees, City Council members, and paid on-call firefighters through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees over 18 years of age are eligible to participate after a six-month probationary period. As established by the pension contract, the City contributes 12 percent to 14 percent of employees' gross earnings, certain employee groups have a mandatory 1 or 3 percent employee match, and any participant can match City contributions at their discretion. In accordance with these requirements, the City contributed \$2,089,974 during the current year, employees' mandatory contributions were \$416,324, and employee voluntary contributions were \$14,541. The City's contributions for each employee (plus interest allocated to the employee's account) are fully vested after five years of continuous service.

Notes to Financial Statements December 31, 2010

Note 11 - Other Postemployment Benefits

Plan description: The City provides retiree health care benefits to eligible retirees, retiree's spouse and qualified dependents through the City of Rochester Hills Retiree Health Benefit Program (the Plan). Benefits are provided to all eligible retired employees by providing them with a funding source to assist with the purchase of health care benefits. Currently the plan consists of 225 members that include active employees and terminated employees or beneficiaries currently receiving the benefit.

The Plan consists of two parts. The primary component, the Retiree Health Savings (RHS) Plan, is available to all eligible employees after they have completed six months of full-time service with the City. This component allows retirees to purchase health care coverage. The second component, the Supplement Benefit program (Supplemental Benefit Plan), is a closed program and is only available to employees who met certain criteria at March 12, 2001. The supplemental benefit program has previously been fully funded and made a required ACR payment for the implicit rate subsidy program per the actuarial valuation.

The RHS Plan is single employer defined contribution plan administered by the City through ICMA-RC. Benefits are provided to non-union employees and employees covered through collective bargaining agreements. Benefits received under this plan are based on the accumulation of contributions and investment earnings to pay for medical expenses at retirement.

The Supplemental Benefit Plan is a single employer defined benefit plan administered by the Retiree Health Care Benefit Trust Board as established and authorized through a Section 115 Trust Document. Investments for the Trust are managed through ICMA-RC. Benefits are provided to eligible retirees that have met certain criteria at March 12, 2001. Benefits under this program are defined payments, based on years of service, made to cover medical insurance premiums.

Both the RHS and the Supplemental Benefit Plans do not issue separate standalone financial statements and administrative costs are paid through employer and or employee contributions.

Notes to Financial Statements December 31, 2010

Note 11 - Other Postemployment Benefits (Continued)

Funding policy: The RHS Plan is funded by City contributions and tax-free mandatory employee contributions. The value of participant accounts, are dependent on the accumulation of employer and employee contributions as well as investment earnings of each participants directed investments. The City contributes to the health savings plan on a monthly basis a minimum of 3 percent. Certain employees groups who have accrued more than 40 unused annual leave hours must contribute the equivalent of up to 16 hours per year to the health savings plan and other groups have a mandatory percent contribution. Benefits paid out depend solely on amounts contributed to the plan plus investment earnings. During the year the City contributed, from various funds, \$542,390 to the RHS Plan and employee mandatory contributions were \$96,201.

The City has established a Retiree Health Care Benefit Trust per P.A. 149 to assist with prefunding the Supplement Benefit Plan and the Implicit Rate Subsidy for retiree medical benefits. The Retiree Health Care Benefit Trust is administered by the Retiree Health Care Benefit Trust Board as established and authorized through a Section 115 Trust Document. Investments for the Trust are managed through ICMA-RC. The investment fiduciaries shall invest the Retiree Health Care Benefit Trust in accordance with P.A. 314 of 1965, as amended. The City contributed the Annual Required Contribution (ARC) for the supplemental benefit program following the one year schedule and the ARC payment for the implicit rate subsidy following the thirty year schedule. All future benefits required under the Supplemental Benefit Plan, including administrative, will come from the Trust Fund. Expenditures for postemployment healthcare costs for employees participating in the supplemental benefit plan are paid as the applicable costs are incurred. During the year, this amounted to \$61,313.

Funding progress: The City has made contributions in 2010 using the actuarial valuation. The ARC payment following the thirty year schedule was approximately \$156,000 for the implicit rate subsidy to the Trust. An updated actuarial valuation was completed in 2010. This valuation's computed contributions and funding are summarized as follows:

Notes to Financial Statements December 31, 2010

Note 11 - Other Postemployment Benefits (Continued)

Activities Fund Total	
Annual required contribution \$ 132,838 \$ 26,598 \$ 159	9,436
Interest on the prior year's net OPEB Obligation 6,268 1,517 7	7,785
Adjustment to the ARC (8,329) (1,954) (10	0,283)

Fund ratio		-		
Annual covered payroll	\$	14,587,949		
Ratio of UAAL to covered payroll		9.85%		

Notes to Financial Statements December 31, 2010

Note 11 - Other Postemployment Benefits (Continued)

Actuarial methods and assumptions: Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2010 actuarial valuation of the market value of assets were used as the funding value. The actuarial assumptions included a 5 percent investment rate of return (net of administrative expenses), that is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 10 percent initially, reduced by decrements to an ultimate rate of 6 percent in year 2018. The UAAL is being amortized using a level dollar over an open thirty year period for the implicit rate subsidy related to the RHS plan.

Notes to Required Supplemental Information

Budgetary Information - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all City funds except that operating transfers and debt proceeds have been included in the "revenue" and "expenditures" categories, rather than as "other financing sources (uses)." All annual appropriations lapse at fiscal year end. During the year, the budget was amended in a legally permissible manner.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. On or before the first Monday in July, each department director submits to the mayor a proposed operating budget for the next fiscal year.
- 2. The mayor prepares a comprehensive budget, which is presented to the City Council at the first meeting in August.
- 3. Public hearings are conducted to obtain residents' comments.
- 4. Prior to November 1, the budget is legally adopted by the City Council.
- 5. Supplemental appropriations to the City's budget require the approval of the City Council.

The budget document presents information by fund, function, department, and line items. The legal level of budgetary control adopted by the governing body is the fund level.

Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Excess of Expenditures Over Appropriations in Budgeted Funds - The City had no significant expenditure budget variances for the year.

innovative by nature

Nonmajor Special Revenue Funds

Special Revenue Funds account for resources legally restricted to expenditures for specified current operating purposes or to the acquisition of furniture, equipment, land, or other relatively minor or comparatively short-lived assets.

R.A.R.A. Millage Fund - This fund accounts for the special millage for the Rochester-Avon Recreation Authority (R.A.R.A.) activities.

Pathway Fund – This fund accounts for the special millage used primarily to maintain pathways.

Public Improvement Fund – This fund accounts for storm water / drainage improvements.

Older Persons' Millage Fund – This fund accounts for the special millage for the Older Persons' Commission activities.

Stoney Creek Perpetual Care Fund – This fund accounts for the monies collected from sales of cemetery lots and spaces. The monies in this fund can only be used for cemetery maintenance and improvements.

Tree Fund – This fund accounts for monies collected per the Tree Conservation Ordinance adopted by City Council. The monies can only be used for operation and maintaining trees on city property and street right-of-way and preserving wooded areas.

Green Space Preservation Fund – This fund accounts for the special millage to permanently preserve natural green spaces and wildlife habitats, and protect woodlands, wetland, rivers, and streams.

innovative by nature

Nonmajor Debt Service Funds

Debt Service Funds account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Road Improvement 2001 Fund — This fund accounts for payment of debt created for improvement to roads using Act 175 bonds. Revenue is generated from tax levies and expenditures are made for principal and interest.

Drain Fund – This fund accounts for payment of debt created for drain construction and maintenance. Revenue is generated from tax levies and expenditures are made for principal and interest.

Local Street Improvement 1995, 2001, and 2002 Funds – These funds account for payment of debt created for the improvement of local streets using Act 175 bonds. Revenue is generated from special assessment collections, and funds received under Act 51 are transferred to these funds from the Local Street Special Revenue Fund for the City's share. Expenditures are made for principal and interest.

OPC Building Bond 2001 Series Fund – This fund accounts for payment of debt created from the construction of a senior citizens building. Revenue is generated from tax levies and expenditures are made for principal and interest.

Refunding OPC Building Bond Series 2010 – This fund accounts for payment of debt created for refunding of the OPC Building Bond 2001 Series callable portion. Revenue is generated from tax levies and expenditures are made for principal and interest.

Refunding General Obligation Bond Series 1998 Fund – This fund accounts for the payment of debt created for the refunding of the park and museum, park and recreation, and the library building bonds' callable portion. Revenue is generated from tax levies and expenditures are made for principal and interest.

Municipal Building Bond Series 2002 Fund – This fund accounts for payment of debt created from the construction of the municipal building addition. Revenue is generated from tax levies and expenditures are made for principal and interest.

Municipal Building Refunding Bond Series 2010 Fund – This fund accounts for payment of debt created for refunding of the Municipal Building Bond Series 2002 callable portion. Revenue is generated from tax levies and expenditures are made for principal and interest.

Nonmajor Capital Projects Funds

Capital Projects Funds account for the purchase and replacement of major equipment, improvements, and the construction of major capital replacements that are not financed by proprietary funds.

Capital Improvement Fund – This fund accounts for the capital purchases and construction by the City. Revenue is transferred from other City funds and expenditures in this fund are for capital purchases, construction or development.

Pathway Construction Fund – This fund accounts for monies received from the Special Revenue Pathway Fund and private development to support major rehabilitation and construction of pedestrian pathway systems.

Fire Capital Fund – This fund accounts for monies received from the Special Revenue Fire Fund and is used for the purchase and replacement of major fire department capital items.

Internal Service Funds

Internal Service Funds account for the financing of goods or services provided by one City department or agency to other departments or agencies primarily on a cost-reimbursement basis.

Facilities Fund – This fund accounts for the costs of operating and maintaining the land and buildings of the City, excluding the water and sewer building.

Management Information Systems Fund – This fund accounts for the costs of data processing services provided to various City departments. The actual cost of materials and services is reimbursed to this fund be the user departments.

Fleet Equipment Fund – This fund accounts for the costs of acquiring and maintaining City-operated vehicles used by various City departments. The actual cost of labor and materials is reimbursed to this fund by the user departments.

Insurance Fund – This fund accounts for the City's self-insured premium payments for general liability, fleet, and property insurance. Recorded in this fund are the reserves and estimated IBNR liability.

Fiduciary Funds

Trust and Agency Funds are used to account for assets held by the City in a trustee capacity or as an agency for individuals, private organizations, other governments, and/or funds. Agency Funds, which are custodial in nature (assets equal liabilities), do not involve measurement of results of operations.

Trust Fund:

Retiree Health Care Trust Fund – This fund accounts for the activity of the postemployment employee health care benefit program provided by the City.

Agency Funds:

Trust and Agency Fund – This fund accounts for advance payments, delinquent taxes, and licensing recorded here until received and/or disbursed.

Tax Collection Fund – This fund accounts for the collection and disbursement of current City tax levies.

Payroll Fund – This fund accounts for monies aggregated for payroll and payroll-reltaed liabilities.

Statistical Section

innovative by nature

Statistical Section

This part of the Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, not disclosures, and required supplemental information says about the City's overall financial health.

The statistical section is organized into the following main categories:

- Financial trends
- Revenue capacity
- Debt capacity
- Demographic and economic information
- Operating information

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year. The City implemented GASB Statement No. 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Note: Under Michigan law, the revenue base is referred to as "taxable value." This amount represents assessed value (50 percent of true cash value), limited for each property by the lower of 5 percent or inflation.

Taxes levied in a particular "tax year" become revenue of the subsequent fiscal year.

Overlapping debt figures supplied by Municipal Advisory Council of Michigan

The percentage of overlapping bonded debt applicable to each governmental unit is estimated using the taxable valuation of assessed property. Applicable percentages were estimated by determining the portion of each governmental unit's taxable property located within the boundaries of the City of Rochester Hills and dividing it by that governmental unit's total taxable value.
