Re: City File No. 06-013

Avon Star LLC has applied for a renewal of a sign variance for their off-site advertising sign located at Crooks and Avon Industrial Drive. A variance was granted on March 26, 2008 to permit the off-site advertising sign in the Avon Industrial Drive right-of-way, subject to 6 conditions. The first condition was that the variance approval would require annual renewals by the Building Department, and if the sign was still being renewed five years from the approval date a variance request would have to be brought back before the Sign Board of Appeals for review.

The applicant wishes to continue renewing the sign, and has applied for a variance. As the request is the same as five years ago, we have attached the staff report and minutes from the March 26, 2008 meeting to this memo.
