Years of experience:										
Crack/Joint sealing services		32			24			49		
Asphalt striping services		32			20			49		
References provided?										
Yes					Yes					
Detailed work plan:										
		To perform the work on weekdays between 8 am - 4 pm.			All work to be done as scope states. Barricade all work areas during duration while on site. Clean areas to receive crack fill thoroughly. Pending depth of cracks, backfill with proper material if needed, install crack fill material. Per scope, install HMA or cold patch in large cracks and fill if necessary. If location calls for striping, have striping done after work.			First block off work area. Then prep the cracks then seal. They will coordinate with the City for what order they want the lots worked on.		
Time frame for crack sealing?										
15 days					Completion-November 15 (latest) also weather pending. Start time after award: 30-40 days weather pending.			30 days		
Time frame for striping?										
15 days					Completion: November 15th Start time after award: 30 days			30 days
