Legislative File No: 2019-0023

TO: Mayor and City Council Members
FROM: Ken Elwert, Director, Parks and Natural Resources
DATE: January 28, 2019
SUBJECT: 2019 Street Tree Planting

REQUEST:

City Council is requested to authorize a blanket purchase order/Contract for 2019 Street Tree Planting to Michigan Lawn Maintenance, Inc., dba Sherman Nursery Farms, Columbus, Michigan in the amount not-to-exceed \$135,000.

REASON FOR PURCHASE:

Request for Proposals were solicited utilizing the MITN system in 2015 and award was issued to Michigan Lawn Maintenance, Inc. dba Sherman Nursery Farms. The contract called for a one (1) year contract term with four (4) 1-year renewal options. The City wishes to exercise the fourth and final renewal option of the contract. Michigan Lawn Maintenance, Inc. dba Sherman Nursery Farms has agreed to hold past pricing and renew for an additional one-year period. Three proposal responses were received and evaluated by the Forestry Unit. Michigan Lawn Maintenance, Inc. dba Sherman Nursery Farms was selected as offering the best value for the City, based on source of plant stock, ability to offer the most variety of trees for purchase and qualifications of personnel.

The Forestry Unit contracts for the planting of trees along City roads, in parks and at other facilities. As well, two separate planting programs are currently in effect: the "City of Rochester Hills Tree Planting Program," and the "Subdivision Tree Planting Program."

The Subdivision Tree Planting Program began in 1979, after adoption of the Subdivision Control Ordinance requiring developers of all new subdivisions to provide funds for one street tree to be planted by the City in front of each new home. Funds for this program are held by the City in an escrow account until the new homes are completed and occupied. The Forestry Unit then includes that property in a forthcoming planting project.

The City of Rochester Hills Tree Planting Program was initiated in 2015, when policy was established authorizing the use of the City's "Tree Fund" (created by the Tree Conservation Ordinance in 1988 and distinct from the above escrow account) to plant trees along public streets and on public properties throughout the City. Tree Fund revenues are generated from payments by developers and builders in lieu of planting replacements for regulated trees removed (or damaged) during construction. This program offers free street trees to property owners who have open planting sites that meet street tree ordinance requirements on the public right-of-way adjacent to their property.
