Dear Members of the Planning Commission

In regard to the request by Varishy Senior Living, increasing their numbers of residents to 12, the current driveway and parking is not suitable for the allowed six residents right now. The home was built for 6 residents. The kitchen is a normal family kitchen, and the dining area is set up for 6 residents also.

Besides the fact that the home is often with one or two empty rooms Seems unreasonable to allow this increase in this residential area.

Thank you for your attention to this matter.
