Re: Proposed Street Lighting-Old Perch Crosswalk at West Middle School

I have completed the review of your request for the proposed lighting and have prepared a cost estimate for the installation of one (1) streetlight. I am recommending the installation of one (1) 136w LED stock roadway luminaire with gray housing, one (1) wood pole, and one (1) 17'6" support arms. Streetlights to be fed by overhead cable.

The costs are based on the Option 1 Municipal Street Light rate, where DTE Energy installs, owns, and maintains the lighting system. The rate requires a portion of the construction costs be paid by the customer, which is determined by the following formula.

1 New Streetlights fed by overhead cable.

Annual Operating Cost	\$172.98
Costs to Construct	\$2,188.61
3yr Revenue Credit	(\$518.94)
Contribution from the City of Rochester Hills	\$1,669.67

The price quoted shall be in effect for a period of six months from the date of this letter, after which these costs will no longer be valid. After installation, the total cost for additional modification, relocation or removal will be the responsibility of the requesting party. Payment of the customer contribution must be made prior to the actual start of construction.

Please contact me for a Street Lighting Purchase Agreement if you would like to proceed with the above installation.

Please call if you have questions, 734-397-4017.

Sincerely,

Brandon R. Faron
