Environmental Impact Statement (EIS)

Guidelines

These guidelines are to be followed by developers desiring to gain approval of proposed plans. The guidelines provide for an in-depth analysis of the site in question considering the past, the present, the proposed plan, and the future expectations with respect to community environmental sanity. The analysis is intended to determine how the proposed plan will meet goals of the community as they are set out separately in the Master Land Use Plan.

The complexity of the EIS must clearly depend upon the scope of the project and the magnitude (in the opinion of the Planning Commission) of the potential impact. It is not the intention of the City to create an unduly burdensome or expensive requirement for the developer. In preparing the EIS in accordance with the outline below, judgment should be exercised to keep the form and extent of responses in proportion to the scope of the project. Each answer is to be as brief as practical.

Where questions or answers are not applicable, please state "Not Applicable". All other data is required, and where incomplete or in adequate data is provided based on the scope of the project and the opinion of the Planning Commission, the lack of such data shall be cause for tabling the application by a majority vote of the body present. The matter will be reopened upon submission of a written report on any questions not properly detailed.

Part 1. Analysis Report: Past and Present Status of the Land

- A. What are the characteristics of the land, waters, plant & animal life present?
- 1. Comment on the suitability of the soils for the intended use

It is a regular vacant lot on Crooks road with some trees.

2. Describe the vegetation giving specific locations of specimens of 6" diameter or greater, or areas of unusual interest on parcels of 5 acres or more

Under 5 acres. Only 1.9 acres

Describe the ground water supply & proposed use

Water supply is only for building usage and landscaped area maintanence

4. Give the location & extent of wetlands & floodplain

No wetlands or flodd plains

5. Identify watersheds & drainage patterns

NA

B. Is there any historical or cultural value to the land?

The property has a historic barn and so the property has a historic value. The Barns will be kept and maintained

C. Are there any man-made structures on the parcel(s)?

A barn is present

Department of Planning and Economic Development (248) 656-4660 planning@rochesterhills.org www.rochesterhills.org

Environmental Impact Statement (EIS)

D. Are there important scenic features? No
E. What access to the property is available at this time? Access from Crooks rd is available
F. What utilities are available? DTE and water is available
Part 2. The Plan
A. Residential (Skip to B. below if residential uses are not proposed)
1. Type(s) of unit(s)
Number of units by type
Marketing format, i.e., rental, sale or condominium
4. Projected price range
B. Non-Residential/Mixed-Use (Skip to Part 3. Impact Factors if non-residential/mixed-uses are not proposed)
Anticipated number of employees 8 employees
Hours of operation/number of shifts 24/7
Operational schedule (continuous, seasonal, seasonal peaks, etc.) Continuous
4. Description of outside operations or storage No outside operations

Department of Planning and Economic Development (248) 656-4660 planning@rochesterhills.org www.rochesterhills.org

Environmental Impact Statement (EIS)

5.	Delineation of trade area			
	Rochester hills. Rocheste	r. Oakland Twn	Trov	Auburn Hills

Competing establishments within the trade area (document sources)

There are no 12 bed buildings. Only 6 beds and larger (20plus) around the area. https://adultfostercare.apps.lara.state.mi.us/

7. Projected growth (physical expansion or change in employees)

No physical expansion is required. Number of employees will not go over 8.

F	Par	t 3. Impact Factors		
A	٦.	What are the natural & urban characteristics	of the plan?	
=	1.	Total number of acres of undisturbed land	1.9	
2	2.	Number of acres of wetland or water existing	0	
3	3.	Number of acres of water to be added	0	

- 4. Number of acres of private open space 1.2
- 5. Number of acres of public open space 0
- 6. Extent of off-site drainage

NA

7. List of any community facilities included in the plan

NA

8. How will utilities be provided?

Sanitary sewer to be installed. DTE, Consumers energy, Comcast

B. Current planning status

Pending site plan approval

C. Projected timetable for the proposed project

Sewer install is expected to start in three months and then building construction which may take about 6-7 months (weather permitting)

D. Describe or map the plan's special adaptation to the geography

This won't change the geography of the area.

Relation to surrounding development or areas

The building will be single story large house on a large lot which will be the same height of the residences behind.

Complete access

Department of Planning and Economic Development (248) 656-4660 planning@rochesterhills.org www.rochesterhills.org

Environmental Impact Statement (EIS)

F. Does the project have a regional impact? Of what extent & nature? No
G. Describe anticipated adverse effects during construction & what measures will be taken to minimize the impact We will take all necessary precautions to minimize any impact to the area. We are expecting to finish the majority of exterior construction during winter months.
H. List any possible pollutants None, except regular contruction dust.
 What adverse or beneficial changes must inevitable result from the proposed development? Physical Air quality No adverse effect
b. Water effects (pollution, sedimentation, absorption, flow, flooding) No adverse effect
c. Wildlife habitat (where applicable) No adverse effect
d. Vegetative cover No adverse effect
e. Night light No adverse effect
 Social Visual Beneficial changes will take place to the overall look of the property and the historic barn will be the most prominent and visible to the public
b. Traffic (type/amount of traffic generated by the project) No traffic changes will happen.
c. Modes of transportation (automotive, bicycle, pedestrian, public) Accessible by automobiles, pedestrians and bikes

d. Accessibility of residents to recreation, schools, libraries, shopping, employment & health facilities

Department of Planning and Economic Development (248) 656-4660 planning@rochesterhills.org www.rochesterhills.org

Environmental Impact Statement (EIS)

3. Economic
a. Influence on surrounding land values
No adverse affects.
b. Growth inducement potential
NA NA
c. Off-site costs of public improvements
There are many ROWs in place. New Bike path/walkway has been built by the city. New Sewer will be installed by directional boring. Another fire hydrant will be installed if needed.
d. Proposed tax revenues (assessed valuation)
Will increase after building is complete
e. Availability or provisions for utilities
J. In relation to land immediately surrounding the proposed development, what has been done to avoid disrupting existing uses &
intended future uses as shown on the Master Land Use Plan?
intended future uses as shown on the Master Land Use Plan? Its a vacant land with a barn. Barn will be kept and maintained to preserve the historic

Environmental Impact Statement (EIS)

Part 4. The Summary

Based on the foregoing Analysis Report, state the net environmental impact on the City of Rochester Hills if the proposed plan is implemented. The summary is intended to briefly set forth a basis for the City of Rochester Hills Planning Commission and the City Council to determine the acceptability of proposed development.

It is suggested that the summary be brief and to the point. Make the comments relative to the initial impression and the lasting effect upon the entire community in relation to at least these points of concern:

- 1. Ecological effects
- 2. Residential, commercial or industrial needs
- 3. Treatment of special features of natural, scenic or historic interest
- Economic effect
- 5. Compatibility with neighborhood, City and regional development, and the City's Master Land Use Plan

The proposed project on the vacant lot on 1841 crooks rd is for a medium size assisted living with 12 beds. The proposed building will be a single story and will house many of our elderly citizens and is affordable to them. There won't be any adverse environmental or ecological effect. Special considerations to preserve the historic nature of the Barn will be in place and will ensure a scenic landscape. This will have a beneficial increase in economy by employing local residents, other businesses and an increase in city revenue by tax assessments. The proposed building will be compatible with the neigborhood and the City.
