Findings

1. The use will promote the intent and purpose of the Zoning Ordinance.
2. The building has been designed and is proposed to be operated, maintained, and managed so as to be compatible, harmonious, and appropriate in appearance with the existing and planned character of the general vicinity, adjacent uses of land, and the capacity of public services and facilities affected by the use.
3. The proposal will have a positive impact on the community as a whole and the surrounding area by further offering a convenient pick-up for pharmacy needs.
4. The proposed development is served adequately by essential public facilities and services, such as highways, streets, police and fire protection, water and sewer, drainage ways, and refuse disposal.
5. The proposed development should not be detrimental, hazardous, or disturbing to existing or future neighboring land uses, persons, property, or the public welfare.

6. The proposal will not create additional requirements at public cost for public facilities and services that will be detrimental to the economic welfare of the community.
