Request for Approval of a Wetland Use Permit for construction activities associated with Hamlin Outdoor Storage, a proposed recreational vehicle storage facility on 9.7 acres located on the north side of Hamlin between John R and Dequindre, zoned I Industrial; Michael Klieman, Wiegand Development, Applicant

**Resolved,** that the Rochester Hills City Council hereby approves a Wetland Use Permit for Hamlin Outdoor Storage, located on the north side of Hamlin east of John R, zoned I Industrial, Parcel No. 15-24-326-004, Michael Klieman, Wiegand Development, Applicant based on plans dated received by the Planning and Economic Development Department on May 27, 2020 with the following findings and conditions:

Findings

1. Of the 41,557 s.f. of wetland area on site, the applicant is proposing to impact approximately 5,471 s.f.
2. Because the wetland areas are of low ecological quality and are not a vital natural resource to the City, the City's Wetland consultant, ASTI, recommends approval.

Conditions

1. If required, that the applicant receives an applicable EGLE Part 303 Permit prior to issuance of a Land Improvement Permit.
2. That the applicant provides a detailed soil erosion plan with measures sufficient to ensure ample protection of wetlands areas, prior to issuance of a Land Improvement Permit.
3. That any temporary impact areas be restored to original grade with original soils or equivalent soils and seeded with a City approved wetland seed mix where possible and implement best management practices, prior to final approval by staff.
