INTER-DEPARTMENTAL MEMO

SUBJ: NET Program and False Alarm Ordinance

---

There has been much recent discussion about the NET Program and False Alarm Ordinance for the City of Rochester Hills. Discussions about these programs initiated back in 2001 when we were diligently pursuing options that would benefit and supplement our existing law enforcement service to our residents.

Obviously, since that time there has been a dramatic decrease in funding from the State of Michigan. Therefore, I would respectfully request that any further discussion about these two programs be tabled until such time that financial conditions warrant a re-opening of these topics.
