RE: Corrected Minutes for Approval

The minutes of the Regular City Council Meeting held on January 21, 2004 were approved at the Regular City Council Meeting on March 3, 2004, however, it was recently determined that these minutes were incomplete. Specifically, a Public Hearing to reprogram CDBG Funds was added to the Agenda, but was inadvertently excluded from the text of the minutes. This has necessitated that the minutes be corrected and resubmitted to Council for approval.

The changes resulting from this correction are noted in the attached minutes and can be found beginning with Section 13. PUBLIC HEARINGS. The addition of this section resulted in the renumbering of the balance of the sections of the minutes.

Please contact me if you have any questions or concerns regarding these corrections.

Thank you.
