TO: AIS Committee

RE: Council Pay Periods

It has been suggested that the AIS Committee examine and evaluate the different options for City Council pay periods. Currently, Council members are paid on a monthly basis. This occasionally results in long payment delays when submission of time sheets does not meet the necessary deadlines. It has been suggested that Council change to bi-monthly payments to alleviate these delays. However, this will require time sheets be submitted more frequently.

The Accounting Department is willing to accommodate any solution, however, it must apply to all Council members.

This issue was examined similarly in 2003 as the following memos indicate.
