Inspection Escrow (minimum \$480.00).....
Administrative Charge (minimum \$75.00).....
Total..... \$500.00
Cash Receipt # _____
Date Paid: _____

Legal Description: See attached plans for legal description

Brief description of the proposed use of type of occupation of the flood plain / floodway:
Rehabilitate existing pavement in parking lot which will entail pulverizing pavement and replacing curb and gutter.

Upon issuance of an approved permit, it is understood that:
The degree of flood protection required by Article III Flood Plain Use and Regulation, Section 114 is considered reasonable for regulatory purposes and it is based upon engineering and scientific methods of study.

- 1. Larger floods may occur on rare occasions.
- 2. Flood heights may be increased by man-made or natural causes, such as ice jams and bridge openings restricted by debris.
- 3. Approval shall not be considered a guarantee or warranty of safety from flood damage.
- 4. Approval does not imply that areas outside the flood plain will be free from flood damage.

Approval does not create liability on the part of the City of Rochester Hills or any officer or employee thereof for any flood damages that result from reliance on this Section or any administrative decision lawfully made thereunder.

This application and permit, if approved, does not relieve the applicant of his responsibility for applying and obtaining other applicable permits.

See Ordinance Section 114 for additional information and requirements.

EXCERPT FROM FLOODPLAIN USE AND REGULATION ORDINANCE 114-157

(a) Application. Applications for Floodplain Use Permit shall include:

- (1) A site plan showing existing structures, topographical features and all proposed changes. The site plan shall include existing and proposed ground elevations and contours (one foot intervals) and a contour showing the base flood elevation;**
 - (2) The elevation in relation to the National Geodetic Vertical Datum of 1929 of the lowest floor of all structures;**
 - (3) Where floodproofing will be employed, the elevation in relation to mean sea level to which a structure will be floodproofed;**
 - (4) Where floodproofing will be employed, a certificate from a licensed professional engineer or architect that the floodproofing criteria of this article will be met;**
 - (5) Where it can be determined that development is proposed within the regulatory floodway, a certification as required by subsection 1140191(c);**
 - (6) A description of the extent to which any watercourse will be altered or relocated as a result of proposed development;**
 - (7) Proof of development permission from appropriate local, state and federal agencies as required by subsection 114-156(1), including a floodplain permit approval, or a letter of no authority from the state department of natural resources under authority of part 31 of the natural resources and environmental protection act, Public Act NO. 451 of 1994 (MCL 324.3101 et seq., MSA 13A.3101 et seq.);**
 - (8) Base flood elevation data where the proposed development is subject to Public Act No. 288 of 1967 (MCL 560.101 et seq., MSA 26.430(101) et seq.) or greater than five acres in size; and**
 - (9) Such other additional information, requested by the engineering department or the city council, which may be reasonably necessary to determine compliance with this article.**
- (b) The applicant may be required to submit engineering data prepared or certified by a licensed professional engineer. (Code 1976, s 4-08.04.02)**
