RE: Information Number

**Gregory L. Walterhouse, Fire Chief**

Please be advised that we have established an information number (248) 841-2590 to provide information relative to "State of Emergency" situations or other large-scale events.

Anyone may call this number during an event (recent examples: Ice Storm, Black-Out, Water System Failure) to receive a taped message about the event.

We will provide a taped message as soon as time allows, and periodic updates there after.

We are also exploring the possibility of a community-wide alert system which we will be bringing forth at budget time.

GLW/dih

c: Mayor Somerville
