April 1, 2005

To the City Council Members and Residents City of Rochester Hills, Michigan

We are pleased to submit the Comprehensive Annual Financial Report of the City of Rochester Hills (the "City") for the year ended December 31, 2004, in accordance with state law and the City Charter. This report is prepared for the purpose of disclosing the City's financial condition to its elected officials, residents, and other interested parties.

The Accounting Division of the City Clerk's office prepared this report, the Comprehensive Annual Financial Report (CAFR) of the City of Rochester Hills. We believe the information presented is accurate in all material aspects, and is presented in a manner that fairly sets forth the financial position of the City and results of City operations as measured by the City's financial activities; and that the CAFR includes all disclosures that are necessary to enable the reader to gain maximum understanding of the City's financial position. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City.

The Comprehensive Annual Financial Report is presented in three sections:

Introductory Section - The introductory sections of the CAFR includes this transmittal letter, an organizational chart, a list of the City's administration, and the City's Certificate of Achievement for Excellence in Financial Reporting for the fiscal year ended December 31, 2003 from the Government Finance Officers Association of the United States and Canada.

Financial Section - The financial section includes the independent auditor's report, management's discussion and analysis report, government-wide financial statements, fund financial statements, notes to the financial statements, required supplemental information, and other supplemental information.

Statistical Section - The statistical section includes selected financial, tax, and demographic information that covers a period of 10 years.

April 1, 2005

Profile of Government - The City of Rochester Hills was incorporated in 1984 and operates under the mayoral-council form of government. The mayor and seven members of the city council are elected to four-year staggered terms. Four of the council members are elected as district representatives and three members are elected as at-large representatives. The approximate population of the City is over 69,000 and comprises an area of 32.2 square miles. The City employs approximately 250 full-time employees and 58 contracted law enforcement officers. Additionally, the City has outstanding educational opportunities in both public and private schools for pre-kindergarten through 12th grade. Rochester College and a portion of Oakland University are located in the City, while several other colleges and universities are within a short driving distance. Quality health care is provided by Crittenton Hospital Medical Center, which is a full-service hospital that offers a variety of services for the community.

The City provides a full range of municipal services for the public's health, safety, welfare, and quality of life. City services include general administration, fire protection, police protection, planning and zoning, engineering, building and code enforcement, cemetery operations and maintenance, park operations and maintenance, street construction and maintenance, storm drain improvements, and pedestrian pathway construction and maintenance.

Water and sewer operations, maintenance, and capital improvements are provided from user charges that ensure adequate coverage of operating expenses, capital replacements, and payments on outstanding debt.

Local Economy - The City of Rochester Hills is a desirable community and continues to attract new residents and businesses. The economic condition of the City is fiscally sound and stable. The City has one of the lowest tax rates compared to other communities in Oakland County. The future, however, is filled with economic uncertainty, challenges, and new opportunities.

Revenue projections continue to be challenging due to the reduction in the State of Michigan's state-shared revenue program. The City's state revenue sharing decreased by \$424,438, or 7.24 percent, from the prior year with a total decline since 2001 of approximately \$1.1 million, or 16.85 percent. Due to the decrease in state-shared revenue, the City continues to be challenged in maintaining current levels of operating expenses.

The local economic base of the City of Rochester Hills possesses a diversified property tax base where residential housing comprises 75 percent of the tax base, 12 percent commercial, 6 percent industrial, and 7 percent personal property (business equipment, furniture, and machinery). No one taxpayer exceeds 1 percent of the tax roll and the top 10 payers combined account for less than 6 percent of the total.

The principal source of revenue to fund the City's operations is property tax. The property tax revenues are a result of applying the millage rate set by City Council within the restrictions of state law to the taxable value of real and personal property located within the City. The City's current tax base between real (93 percent) and personal (7 percent) property tax revenue for the fiscal year 2005 has a taxable value of \$3,230,824,070.

April 1, 2005

Major Initiatives

Local Roads - The City is currently pursuing the education of its residents and businesses as to the lack of funding for the City's local road program. No clear plan has been established for funding the needed local road projects. The City continues to work to develop a street improvement plan as the fund balance continues to deplete.

Capital Improvement Plan - The City of Rochester Hills Planning Commission adopted the 2005-2010 Capital Improvement Plan. Currently, the Commission is reviewing the 2006-2011 plan for the 2006 budget process. Significant capital projects include:

- Department of Public Service facility
- Sanitary rehabilitation program
- Water main extensions
- Drain extensions
- Major and local road construction

Long-term Financial Planning - The City will continue to improve and build upon its long-term processes. In 1995, the City developed a five-year financial model. As part of the budgeting process, the fiscal division updates the long-range forecasts of revenue and expenditures. The forecasts serve as the framework for budgetary decision-making by clarifying financial parameters and available options. The model provides historical data, current financial capacity given existing City programs, and future financial capacity, given our long-range plans and objectives.

The City has adopted the following financial policies to guide the process for long-term financial planning and decision-making.

Capital Improvement Plan - In accordance with the State of Michigan Planning Act 285, the Rochester Hills Planning Commission adopts a Capital Improvement Plan (CIP). The CIP is an exceptional tool that benefits our community and is meant to consider the immediate and future needs and goals of the City. The plan incorporates external and internal infrastructure projects. Such projects include drainage, major and local roads, parks, and City-owned facilities. The plan includes projects necessary to continue government operations that deliver the best services to our residents.

Debt Policy - Subject to applicable provisions of state statutes and the City Charter, the City Council, by ordinance or proper resolution, may authorize the borrowing of money for any purpose. The City's general obligation bonded debt issuances are subject to a legal limitation based on 10 percent of taxable value of real and personal property. In addition, under current state statutes, the City's special assessment bond debt issuances are subject to a legal limitation based on 12 percent of taxable value of real and personal property.

April 1, 2005

Investment Policy - Funds of the City will be invested in accordance with Michigan Public Act 239 of the Public Acts of 1988, as amended. The City has an investment policy that identifies the following objectives: procedures and policy, safety of capital, liquidity, return on investment, protection of purchasing power, and maintaining the public's trust.

The City has a cash management system designed to invest temporarily idle funds in obligations of the U.S. government, certificates of deposits from banks and savings and loan associates, commercial paper, banker's acceptances, and municipal investment pooled trusts consistent with Public Act 20 as permitted by state law and the City's investment policy. All cash and investments are maintained in the City's name and insured when possible, and delivery versus payment is the preferred safekeeping technique. Collateralized cash and investments are of primary importance to the City. Under current state banking law, bank deposits are not permitted to be collateralized. The City exercises caution when making bank deposits above FDIC insurance levels.

Risk Management - The City is self-insured for comprehensive general liability, motor vehicle damage, comprehensive property damage, and public official liability through the Michigan Municipal Risk Management Authority (MMRMA). The City has aggregate excess reinsurance coverage for aggregate claims in excess of \$300,000 up to a maximum limit of \$15,000,000 per each occurrence.

The City participates in the Michigan Municipal League Workers' Compensation Fund for workers' compensation claims. The City is proactive in various risk control techniques to help control losses. These techniques include employee accident prevention training, defensive driving programs, and safety training programs.

Pension and Postemployment Benefits - The City provides pension benefits for substantially all full-time employees, members of the City Council, and paid-on-call firefighters, through a defined contribution plan. Under a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings on contributions. The City makes monthly contributions to the plan and the plan is fully funded.

The City has established a retiree health benefit program, which is comprised of a health savings plan and a supplement benefit. Full-time employees that have completed their probation period are eligible for the health benefit plan. The City contributes to the health savings plan on a monthly basis and the plan is fully funded. The expenditures for the postemployment health care costs for employees participating in the supplement benefit plan are paid as the costs are incurred.

Awards - For each of the last 16 years (fiscal years 1988 through 2003, inclusive), the City of Rochester Hills, Oakland County, Michigan has received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA). The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

April 1, 2005

Acknowledgements - The preparation of this report was made possible by the efficient and dedicated staff of the accounting division. Also, the cooperation and assistance of every department in the City has been invaluable. We thank all of them for their efforts.

We also express our sincere appreciation to the accounting firm of Plante & Moran, PLLC, who assisted and contributed to this preparation. Additionally, members of the City Council are acknowledged for their ongoing interest and support in planning and conducting the financial operations of the City in a responsible manner.

Respectfully submitted,

Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Rochester Hills, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rochester Hills, Michigan as of and for the year ended December 31, 2004, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Rochester Hills, Michigan's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Rochester Hills, Michigan as of December 31, 2004, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

To the Honorable Mayor and Members of the City Council City of Rochester Hills, Michigan

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Rochester Hills, Michigan's basic financial statements. The management's discussion and analysis and the budgetary comparison schedules are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. The introductory section, other supplemental information, and statistical section are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The budgetary comparison schedules, combining balance sheets, and combining statements of revenue, expenditures, and changes in fund balance have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. We have applied certain limited procedures to the management's discussion and analysis, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it. The introductory section and statistical section have not been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with Government Auditing Standards, we have also issued our report dated April 7, 2005 on our consideration of the City of Rochester Hills, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Plante & Moran, PLLC

April 7, 2005

Management's Discussion and Analysis

The management's discussion and analysis (MD&A) of the City of Rochester Hills, Michigan (the "City") is a narrative overview of the City's financial activities and performance for the fiscal year ended December 31, 2004. Please read it in conjunction with the City's financial statements and notes to the financial statements.

Government-wide Statements

The MD&A is followed by the City's basic financial statements, which are comprised of two sections. The first two statements, entitled government-wide statement of net assets followed by the government-wide statement of activities, are financial statements that represent the City as a whole and provide a long-term perspective regarding the City's overall financial status. The statement of net assets includes all of the City's assets and liabilities as described in Notes 5 and 7, respectively, to the financial statements. The difference between the City's assets and liabilities is the "net assets," which is a way to measure the financial health of the City as it fluctuates from one year to the next. The statement of activities reports all of the current year's earned revenue and accrued expenses, regardless of when cash is received or paid and represents the change in net assets from one year to the next.

The City's activities are separated into three categories: governmental and business-type activities, which represent the City's total financial performance, followed by the component unit financial information.

- The governmental activities column reports the City's basic services, including general administration, fire, police, department of public works, and parks and recreation.
- Business-type activities represent those activities for which the City charges fees to customers to cover the cost of services. The City's water and sewer system is the only business-type activity reported.
- The City has six discretely presented component units (only four had financial activity during 2004) included in this report as follows: Local Development Finance Authority, Economic Development Corporation, Rochester-Avon Recreation Authority, the Older Persons' Commission, the Brownfield Redevelopment Authority, and the Automation Alley SmartZone. Although legally separate, these component units are important because the City is financially accountable. Further information regarding the purpose of each component unit is found in Note I to the financial statements.

Management's Discussion and Analysis (Continued)

Fund Financial Statements

The City's fund financial statements are similar to the historical presentation; however, this section individually discloses only those funds designated as the City's "major" funds. All nonmajor funds are aggregated into one column. These statements provide a higher level of detail than the government-wide statements and continue to illustrate how the services provided by the City were financed in the short term as well as what remains for future spending. The City has three types of funds that are used to keep track specific sources of funding and spending for particular purposes as follows:

- Governmental Funds The majority of the City's basic services included in the governmental funds not only focus on how cash and other financial assets that can readily be converted to cash flow in and out, but also what year-end balances are available to finance future City programs. Because this information does not include the additional long-term focus of the government-wide statements, reconciliation statements are provided to explain the differences between the two methods of reporting. Pages 16 and 19 illustrate this concept.
- Proprietary Funds Services for which the City charges customers fees are reported in this fund type. This fund type provides both the short- and long-term financial information comparable to the business-type activity in the government-wide statements.

The City uses two types of proprietary funds; the Water and Sewer Fund is an Enterprise Fund, which typically charges residents usage fees. The other proprietary fund type is Internal Service Funds, of which the City has four, which are used to report activities that provide services to other City funds and activities, typically covered by charges to other City departments. Individual financial statements are presented for each fund in the section entitled "other supplemental information." The activity of the Internal Service Funds is eliminated in the government-wide statements to avoid duplicate reporting of revenues and expenses.

Fiduciary Funds - The City is responsible for ensuring the assets reported in these funds
are used for their intended purpose. The City's fiduciary activities are reported in a separate
statement of fiduciary assets and liabilities. Fiduciary activities are excluded from the City's
government-wide statements because these assets are not available to finance City
operations.

Management's Discussion and Analysis (Continued)

Financial Analysis of the City as a Whole

Statement of Net Assets - The City's combined net assets increased 2.9 percent, or \$7.8 million, from \$270.8 million in 2003 to \$278.6 million in 2004. Of this increase, \$6.0 million, or 76.9 percent, is attributed to governmental activities. The primary increase is attributed to unrestricted net assets related to government activities of \$17.9 million, or 27.0 percent, which represents the amount that may be used to meet the City's ongoing obligations. Business-type net assets increased by \$1.8 million between 2003 and 2004, to \$119.8 million. The primary increase is attributed to the unrestricted net assets.

The City's assets totaled \$372.1 million, up by \$2.7 million, less than 1 percent from 2003. This relates primarily to amounts being invested to increase interest earnings and no major projects were started or completed during the fiscal year.

The City's total liabilities decreased approximately \$5.2 million, or 5.3 percent, to \$93.4 million in 2004. This relates primarily to paying off or reducing outstanding debt in the governmental activities by \$4.4 million.

In condensed format, the table below shows the comparison of net assets (in millions) as of December 31, 2004 to prior year:

TABLE I

| | Governme | ntal Activities | Business-ty | pe Activities | Total | | | |
|------------------------------|-----------------|-----------------|---------------------|---------------|-----------------|----------|--|--|

| Total program | | | | | | | | |
| expenses | 40.1 | 44.3 | 19.7 | 19.9 | 59.8 | 64.2 | | |
| Change in Net Assets | 6.0 | 1.0 | 1.8 | 0.1 | 7.8 | 1.1 | | |
| Net Assets - Beginning of year | 152.8 | 151.8 | 118.0 | 117.9 | 270.8 | 269.7 | | |
| Net Assets - End of year | <u>\$ 158.8</u> | <u>\$ 152.8</u> | <u>\$ 119.8</u> | \$ 118.0 | <u>\$ 278.6</u> | <u>\$ 270.8</u> | | |

The City's governmental activity revenue exceeded annual expenses by \$6 million, resulting in an increase in net assets as of December 31, 2004 to \$158.8 million. Business-type activity revenue exceeded annual expenses by \$1.8 million, resulting in an increase in net assets to \$119.8 million. The following graphs illustrate the primary sources of revenue and expenses for the total primary government of the City of Rochester Hills for the year ended December 31, 2004.

Management's Discussion and Analysis (Continued)

Governmental Activities - Of the City's total revenue generated for fiscal year 2004, property tax comprises the largest segment. Property tax revenue increased over the prior year by \$1.6 million, or 6.1 percent. This increase relates primarily to a 5.4 percent increase in taxable value while the millage rates remained the same. Of the grants and contributions revenue, \$4.4 million is associated with the State of Michigan Act 51 revenues for the major and local road systems, while much of the remaining revenue is associated with the governmental activity related to road systems donated by developers in the amount of \$1.7 million. State-shared revenue is a large segment of the governmental activity, for which the City received \$5.4 million. This reflects a decrease over the prior year by \$.3 million.

The majority of governmental expense is associated with the public safety function, which is \$15.2 million, or 37.9 percent of the total governmental activity. Public safety includes building, ordinance enforcement, fire, and police services. Public safety expenses increased \$2.7 million, which is attributed to increased costs of operations and contractual services. Public works expenses total \$10.2 million, or 17 percent. Public works expenses decreased by \$1.6 million from the prior year, which is attributed to fewer construction projects in 2004.

Management's Discussion and Analysis (Continued)

Business-type Activities - The City's business-type activities are recorded in the Water and Sewer Fund. The City provides water purchased from the City of Detroit to residents. Of the City's charges for service revenue, the majority is generated from charges passed on to residents, which is \$17.8 million. The charges for services are offset by water and sewer expenses of \$19.7 million, or 32.9 percent of the City's total expenses, and after capital contributions the business activity has a net change in assets of \$1.8 million.

Financial Analysis of the City's Funds - An analysis of the City's major funds follows the government-wide financial statements. The fund financial statements provide detailed information on the most significant funds, not the City as a whole. In addition to State legislative requirements to maintain separate funds for Act 51 major and local road money, the City creates funds to administer certain dedicated dollars and demonstrate accountability to the citizens for special tax millages voted by citizens and earmarked bond proceeds. The City's major funds for fiscal 2004 include the General Fund, the Major Road Fund, the Local Road Fund, the Fire Fund, and the Special Police Protection Fund. Capital improvements in the major funds include road reconstruction projects and a transfer from the City's Fire Operating Funds to the Fire Apparatus Fund for purchases of fire and emergency medical apparatus. The General Fund transferred a substantial amount of its operating funds to subsidize programs such as police protection, roads, seed money for capital projects, and to cover its share for internal service.

General Fund Budgetary Highlights - The City administration, mayor, and City Council continuously monitor and amend the budget to reflect unanticipated events that occur during the year. The major changes during fiscal year 2004 were decreases in anticipated state-shared revenues, departmental administrative interfund charges, and charges for service. Fees and permits increased due to building improvements and additions that resulted in increased revenue for electrical, heating, and plumbing permit fees. Despite these increases, total General Fund revenues came in approximately \$21,000 under budget.

General Fund expenditures came in approximately \$1.1 million, or 4.7 percent, under budget, which resulted in a decrease of fund balance in the amount of \$112,376. City departments overall stayed below budget and the differences between the original budget and the final amended budget were due to unanticipated events and projects that did not materialize in 2004.

Capital Asset and Debt Administration - The City of Rochester Hills has \$251.8 million invested in a broad range of capital assets including land, building, technology equipment, fire equipment, water and sewer lines, and infrastructure for its governmental and business-type activities as of December 31, 2004. This reflects a decrease in net capital assets of \$1.7 million during the year.

Management's Discussion and Analysis (Continued)

The City of Rochester Hills' debt rating is excellent. The City maintains an AA+ by Fitch Ratings and Standard and Poor's. The City's bond indebtedness and contractual obligations totaled \$55.2 million at December 31, 2004. During the fiscal year, the City issued \$1.1 million in refunding bonds to refinance an existing drainage bond.

City of Rochester Hills Outstanding Debt (in millions of dollars)

| | | nmental ivities |
|---|-----------------|--------------------|
| | <u>2004</u> | <u>2003</u> |
| General obligation bonds County contractual obligations | \$ 33.4 17.9 | \$ 35.9 19.4 |
| Special assessment bonds | <u>3.9</u> | 4.4 |
| Total | <u>\$ 55.2</u> | <u>\$ 59.7</u> |

Economic Factors and New Year's Budget and Rates - The City's tax base is expected to continue to grow during 2005 by approximately \$165 million, or 5.4 percent. The City's total tax rate has been stable for the past four years at 9.3681 mills and is expected to remain the same for fiscal year 2005. This rate represents the third lowest millage rate among cities in Oakland County. Taxes account for 49 percent of governmental-type revenues and 43 percent of the General Fund revenues for the 2005 fiscal year. The General Fund tax revenue is estimated at \$10 million.

Management's Discussion and Analysis (Continued)

The City's Local Road Fund continues to deplete and it is anticipated using approximately \$1.4 million of fund balance for fiscal year 2005. The City Council and the administration continue to plan and identify a long-term funding source to implement the needed local road improvements and address future projects. The 2005 Local Road Fund budget does not include local road construction, improvements, or rehabilitation projects.

Capital projects for governmental-type funds for fiscal year 2005 include major road improvements, drainage construction, park and museum improvements, and purchase of equipment for fire and fleet.

The Water and Sewer Fund anticipates several water and sewer main projects in addition to improvements to the DPS facility, radio read system, and a water tower to store water. These activities are all planned for fiscal year 2005.

Contacting the City's Management - This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact the administrative offices at the City of Rochester Hills.

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended December 31, 2004

| Net Change in Fund Balances - Total Governmental Funds | \$ 1,729,994 |
|--|-----------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures; in the statement of activities, these costs are allocated over their estimated useful lives as depreciation | (775,529) |
| Special assessment revenues are recorded in the statement of activities when the assessment is set; they are not reported in the funds until collected or collectible within 60 days of year end | (213,230) |
| Revenue reported in the statement of activities that does not provide current financial resources and is not reported as revenue in the governmental funds | 22,957 |
| Accrued interest payable is recorded when due in governmental funds; in addition, bond issuance costs are amortized during the life of the bond | 143,855 |
| Repayment of bond principal is an expenditure in the governmental funds, but not in the statement of activities (where it reduces long-term debt) | 5,403,516 |
| Bond proceeds are not reported as financing sources on the statement of activities | (1,120,000) |
| Increase in accumulated employee sick and vacation pay, as well as estimated general liability claims, are recorded when earned in the statement of activities | (36,549) |
| Internal Service Funds are also included as governmental activities | 923,922 |
| Change in Net Assets of Governmental Activities | \$ 6,078,936 |

December 31, 2004

Note I - Summary of Significant Accounting Policies

The accounting policies of the City of Rochester Hills, Michigan (the "City") conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the City of Rochester Hills, Michigan:

Reporting Entity

The City of Rochester Hills, Michigan is a municipal corporation that is governed by an elected seven-member council. The City provides the following services as authorized by its charter: public safety (fire protection and contract police service), street maintenance, water and wastewater distribution, parks and recreation, public improvements, planning and zoning, and general administrative services. The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Although blended component units are legal separate entities, in substance, they are part of the City's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City (see discussion below for description).

Joint Ventures - The City is a member of the Paint Creek Trailways Commission, which was organized in 1981 for the purposes of owning, developing, maintaining, and otherwise operating certain nonmotorized public trails within the jurisdiction of the participating governmental organizations. The participating communities, which include Orion Township (8 percent), City of Rochester (11 percent), City of Rochester Hills (37 percent), and Oakland Township (44 percent), provide annual funding for its operations. During the current year, the City contributed approximately \$16,000 for its operations. The City is unaware of any circumstances that would cause an additional benefit or burden to the participating governments in the near future. The City does not have an equity interest in the joint venture. Complete financial statements for the Paint Creek Trailways Commission can be obtained from the administrative offices at 4393 Collins Road, Rochester, MI 48306.

Blended Component Units - The Rochester Hills Building Authority is governed by a five-member board that is appointed by the City Council. Although it is legally separate from the City, it is reported as if it were part of the primary government because its primary purpose is to finance and construct the City's public facilities.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Discretely Presented Component Units - The following component units are reported within the component unit column in the government-wide financial statements. They are reported in a separate column to emphasize that they are legally separate from the City.

- a. The Local Development Finance Authority (LDFA) is governed by a 13-member board, of which seven members are appointed by the mayor and confirmed by the City Council while the other six members are appointed by the legislative bodies of other taxing authorities. The City of Rochester Hills, Michigan has the ability to impose its will upon the LDFA. The LDFA was created to provide a means for financing infrastructure improvements within a certain area of the City. Their financial statements can be obtained from their administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- b. The Economic Development Corporation (EDC) is governed by a 10-member board appointed by the mayor and confirmed by the City Council. The EDC was created to provide a means and method for encouragement and assistance of industrial and commercial enterprises in relocating, purchasing, constructing, improving, or expanding within the City. The City of Rochester Hills, Michigan has the ability to impose its will upon the EDC. The EDC may issue industrial revenue bonds as a means of providing financing for certain enterprises. Their financial statements can be obtained from their administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- c. The Rochester-Avon Recreation Authority (R.A.R.A.) was organized for the purpose of providing extensive and varied recreational programs for persons residing within the jurisdiction of the participating governmental organizations.

Along with the City of Rochester Hills, Michigan, which is a 90 percent-member unit, the City of Rochester is also a member unit with a 10 percent interest. The governing body of R.A.R.A. consists of one City Council member and two Council-appointed persons from the City of Rochester Hills, one City Council member, and one Council-appointed person from the City of Rochester and three Board-appointed persons from each Rochester and Avondale Schools. There is a financial benefit/burden relationship between R.A.R.A. and the City of Rochester Hills. Their financial statements can be obtained from their administrative offices at 108 East Second Street, Rochester, MI.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

d. The Older Persons' Commission (O.P.C.) was organized in 1983 for the purpose of providing activities and services for older persons residing within the jurisdiction of the participating governmental organizations. Along with the City of Rochester Hills, Michigan, which is a 75 percent participating member, Oakland Township (14 percent) and the City of Rochester (11 percent) are also member units of the O.P.C.

The governing body of the O.P.C. consists of two City Council members and two Council-appointed older persons from the City of Rochester Hills, one City Council member and one Council-appointed older person from the City of Rochester, and one Board member and one Board-appointed older person from Oakland Township. There is a financial benefit/burden relationship between O.P.C. and the City of Rochester Hills. Their financial statements can be obtained from their administrative offices at 650 Letica Dr., Rochester, MI.

- e. The Brownfield Redevelopment Authority (the "Authority") was created, pursuant to Public Act 381 of 1996, to promote revitalization of environmentally distressed areas within the 32.2 square mile boundary of the City. The Brownfield Redevelopment Authority is governed by a seven-member board that is appointed by the mayor and confirmed by the City Council. During 2003, the Authority had no financial activity. Their financial statements can be obtained from their administrative offices at 1000 Rochester Hills Drive, Rochester Hills, MI.
- f. The Automation Alley SmartZone (SmartZone) was created in 2003 to foster new economic growth and development by establishing clusters of technology companies. The program also seeks to develop relationships between these businesses and universities by providing businesses resources and accessibility to university facilities for the purpose of commercializing research. The SmartZone is governed by a 13-member board, which is appointed by the mayor and confirmed by the City Council. The City of Rochester Hills has the ability to impose its will upon the SmartZone. During 2003, the SmartZone had no financial activity.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenue. The cable franchise fees are reported as general revenue because they are not generated from any program of our government, and are unrestricted as to use.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund, fiduciary fund, and component unit financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The following major revenue sources meet the availability criterion: state-shared revenue, state gas and weight tax revenue, district court fines, and interest associated with the current fiscal period. Conversely, special assessments and federal grant reimbursements will be collected after the period of availability; receivables have been recorded for these, along with a "deferred revenue" liability.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, expenditures relating to compensated absences, and claims and judgments are recorded only when payment is due.

The City reports the following major governmental funds:

- a. The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- b. The Major Road Fund accounts for the State of Michigan Public Act 51 monies that are used to construct and maintain major road systems.
- c. The Local Road Fund accounts for the State of Michigan Public Act 51 monies that are used to construct and maintain local road systems.
- d. The Fire Fund accounts for all revenue and expenditures for citywide fire operations, including millage collection.
- e. The Special Police Protection Fund accounts for the special millage for City police protection contracted with Oakland County.

The City reports the following major proprietary fund:

The Water and Sewer Fund records maintenance and operations of water and sewer departments provided for City residents and is financed primarily through user charges.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Additionally, the City reports the following fund types:

- a. Internal Service Funds account for costs of operating and maintaining the land, buildings, machinery, equipment, and vehicle purchases of the City, as well as risk management services provided to other departments of the City on a cost reimbursement basis.
- b. The Agency Funds account for assets held by the City in a trustee capacity. Agency Funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations.

Private sector standards of accounting issued prior to December I, 1989 are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with the standards of the Governmental Accounting Standards Board. The City has elected not to follow private sector standards issued after November 30, 1989 for its business-type activities.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer function and various other functions of the City. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our proprietary funds relates to charges to customers for sales and services. The Water and Sewer Fund also recognizes the portion of tap fees intended to recover current costs (e.g., labor and materials to hook up new customers) as operating revenue. The portion intended to recover the cost of the infrastructure is recognized as nonoperating revenue. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Property Tax Revenue

Property taxes are levied on each December 1 on the taxable valuation of property as of the preceding December 31. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The City's 2003 tax is levied and collectible on December 1, 2003, and is recognized as revenue in the year ended December 31, 2004, when the proceeds of the levy are budgeted and available for the financing of operations.

The 2003 taxable valuation of the City totaled approximately \$3,000,000,000 (of which approximately \$27,000,000 is captured by the LDFA), on which taxes are levied as follows:

| Function | Mills | <u>Dollars</u> | | | |
|---|--------|----------------|---------------------|--|--|
| General operating purposes | 3.0850 | \$ | 9,373,889 | | |
| Fire operating services | 1.9000 | | 5,773,222 | | |
| Police protection services | 1.2362 | | 3,756,241 | | |
| OPC operating, transportation, and building | 0.2686 | | 816,151 | | |
| R.A.R.A. operating | 0.1609 | | 488,901 | | |
| Bike path maintenance | 0.1903 | | 578,23 4 | | |
| Drain maintenance | 0.4110 | | 1,248,839 | | |
| Debt service | 1.3158 | | 3,363,398 | | |

These amounts are recognized in the respective General, Special Revenue, and Debt Service Funds financial statements as tax revenue. In addition, there are .8003 mills that are collected by the City for library operations.

Assets, Liabilities, and Net Assets or Equity

Bank Deposits and Investments - Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value. Investment income from pooled investments is generally allocated to each fund using a weighted average.

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Receivables and Payables - In general, outstanding balances between funds are reported as "due to/from other funds." Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as "advances to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." All trade and property tax receivables are shown as net of allowance for uncollectible amounts.

Inventories and Prepaid Items - Inventories are valued at cost, on a first-in, first-out basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets - Assets have been restricted in the primary government, as they represent the assets held at Oakland County to be applied against future payment obligations of the City. See Note 8 for additional discussion.

Capital Assets - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, water and sewer mains, and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the City as assets with an initial individual cost of more than \$3,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Assets are depreciated using the straight-line method over the following useful lives:

| Roads . | 20 years |
|--------------------------------------|----------|
| Drainage flow rights | 40 years |
| Water and sewer distribution systems | 50 years |
| Buildings | 50 years |
| Land improvements | 15 years |
| Building improvements | 10 years |
| Other tools and equipment | 8 years |
| Vehicles | 7 years |
| Office furnishings | 3 years |

Notes to Financial Statements December 31, 2004

Note I - Summary of Significant Accounting Policies (Continued)

Compensated Absences (Vacation and Annual Leave) - It is the City's policy to permit employees to accumulate earned but unused vacation and annual leave pay benefits. Historically, these benefits have been liquidated by the General Fund or other operating fund to which each employee is assigned. All vacation and annual leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end.

Long-term Obligations - In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Notes to Financial Statements December 31, 2004

9.844

Note 2 - Stewardship, Compliance, and Accountability

Cumulative excess at December 31, 2004

Construction Code Fees - The City oversees building construction, in accordance with the State's Construction Code Act, including inspection of building construction and renovation to ensure compliance with the building codes. The City charges fees for these services. The law requires that collection of these fees be used only for construction code costs, including an allocation of estimated overhead costs. A summary of the current year activity and the cumulative shortfall generated since January 1, 2000 is as follows:

| Cumulative shortfall at January 1, 2004 | | \$ (124,479) |
|--|----------------------------|--------------|
| Building permit revenue | | 2,169,003 |
| Related expenses: Direct expenses Estimated indirect costs | \$ 1,769,287 265,393 | |
| Total related expenses | | 2,034,680 |

The excess at December 31, 2004 may only be used to fund construction code activities.

Note 3 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan. The City has designated certain banks which they update annually for the deposit of its funds. The investment policy adopted by the City Council in accordance with Public Act 196 of 1997 has authorized investment in all legal investments as noted above. The City of Rochester Hills' deposits and investment policies are in accordance with statutory authority.

Notes to Financial Statements December 31, 2004

Note 3 - Deposits and Investments (Continued)

At year end, the deposits and investments were reported in the basic financial statements in the following categories:

| | Governmental | | Business-type | | Fiduciary | | T | otal Primary | Component | | |
|---------------------------------------|--------------|--------------------------|---------------|------------------------|-----------|-----------------------|----|--------------------------|-----------|------------------------|--|
| | | Activities | Activities | | Funds | | | Sovernment | Units | | |
| Cash and cash equivalents Investments | \$ | 35,824,043 44,640,812 | \$ | 8,198,336 6,022,507 | \$ | 4,921,324 <u>-</u> | \$ | 48,943,703 50,663,319 | \$ | 1,772,679 1,994,678 | |
| Total | <u>\$</u> | 80,464,855 | \$ | 14,220,843 | \$ | 4,921,324 | \$ | 99,607,022 | \$ | 3,767,357 | |

The breakdown between deposits and investments for the City is as follows:

| | Primary Government | C | Component Units |
|--|-----------------------|---------|--------------------|
| | - Covernment | - | Offics |
| Bank deposits (checking accounts, savings | | | |
| accounts, and certificates of deposit) | \$ 25,533,329 | \$ | 2,111,377 |
| Investments in securities, mutual funds, and | | | |
| similar vehicles | 74,068,375 | | 1,654,830 |
| Petty cash or cash on hand | 5,318 | <u></u> | 1,150 |
| Total | \$ 99,607,022 | \$ | 3,767,357 |

Deposits

The bank balance of the City's deposits is approximately \$24,072,000 (without recognition of checks written but not yet cleared or of deposits in transit), of which \$1,000,000 is covered by federal depository insurance. The remainder was uninsured and uncollateralized. The City has designated 10 banks for the deposit of its funds. The City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the City evaluates each financial institution with which it deposits City funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

The component units' deposits had a bank balance of approximately \$1,995,000, of which \$450,000 was covered by federal depository insurance.

Notes to Financial Statements December 31, 2004

Note 3 - Deposits and Investments (Continued)

Investments are categorized into these three categories of credit risk:

Category I - Insured or registered, with securities held by the City or its agent in the City's name;

Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name; and

Category 3 - Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City's name.

At year end, the City's investment balances were categorized as follows:

| | I | 2 | 3 | | Reported Amount (Fair Value) |
|---|------|---------------|------|-----------|------------------------------------|
| Primary government - U.S. government securities | \$ - | \$ 26,743,775 | \$ - | \$ | 26,743,775 |
| Investments not subject to | | | | | |
| categorization: Bank investment pool funds | | | | | 20,798,489 |
| Interlocal agreement investment pool funds | | | | _ | 26,526,111 |
| Total primary government | | | | <u>\$</u> | 74,068,375 |
| Component units - Interlocal agreement: | | | | | |
| Investment pool funds | | | | \$ | 1,078,706 |
| Bank investment pools | | | | | 576,124 |
| Total component unit | | | | \$ | 1,654,830 |

Investments not subject to categorization are not evidenced by securities that exist in physical or book entry form. The bank investment pools and interlocal agreement investment pool are not categorized because they are not evidenced by securities that exist in physical or book entry form. The bank investment pools are regulated by the Michigan Banking Act. Investments under the interlocal agreement (MBIA-CLASS) are regulated by the Urban Cooperation Act. The fair value of the position in the bank investment pools and interlocal agreement pools is the same as the value of the pool shares.

Notes to Financial Statements December 31, 2004

Note 4 - Deferred Revenue

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the various components of deferred revenue are as follows:

| | | Unearned | | | |
|---------------------|-----------|----------|----|------------|--|
| Property taxes | \$ | _ | \$ | 27,402,318 | |
| Special assessments | | 825,452 | | - | |
| Other | | _ | _ | 399,572 | |
| Deferred revenue | <u>\$</u> | 825,452 | \$ | 27,801,890 | |

Note 5 - Capital Assets

Capital asset activity of the City's governmental and business-type activities was as follows:

| | | Balance | | | | | | Balance | |
|---------------------------------------|--------|-------------|----|-----------|-------------|------------|--------------|-------------|--|
| | | January I, | , | , | Dis | posals and | December 31, | | |

Note 6 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

| Receivable Fund | Payable Fund | Amount |
|---|---------------------------------|---------------|
| General Fund | Fleet Equipment Fund | \$ 146 |
| Major Road Fund | General Fund | 12,786 |
| Local Road Fund | General Fund | 768 |
| | Major Road Fund | 156,236 |
| | Total Local Road Fund | 157,004 |
| Fire department | General Fund | 1,435 |
| Special Police Protection Fund Nonmajor governmental funds | General Fund | 85 |
| Nonmajor governmental funds | General Fund | 3,072 |
| Water and Sewer Fund | General Fund | 7,528 |
| | Local Road Funds | 469 |
| | Total Water and Sewer Fund | 7 ,997 |
| Building and Grounds Fund | General Fund | 268 |
| J | Local Road Fund | 781 |
| | Total Building and Grounds Fund | 1,049 |
| Management Information Systems Fund | General Fund | 300 |
| | Total | \$ 183,874 |

These balances result from the time lag between the dates that goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

Notes to Financial Statements December 31, 2004

Note 6 - Interfund Receivables, Payables, and Transfers (Continued)

Interfund transfers reported in the fund financial statements are comprised of the following:

| Fund Transferred From | Fund Transferred To | | Amount |
|--------------------------------|-----------------------------------|-----------|------------|
| General Fund | Major Road Fund | \$ | 1,507,552 |
| | Local Road Fund | * | 500,000 |
| | Special Police Fund | | 2,566,700 |
| | Tree Fund | | 1,193,216 |
| | Nonmajor governmental funds | | 1,534,190 |
| | Building and Grounds Fund | | 439,092 |
| | Fleet Equipment Fund | | 45,000 |
| | Total General Fund | | 7,785,750 |
| Major Road Fund | Local Road Fund | | 787,943 |
| | Nonmajor governmental funds | | 480,810 |

| | Nonmajor governmental funds | | 3,868,550 |
| | Building and Grounds Fund | | 675,736 |
| | Total nonmajor governmental funds | | 4,600,246 |
| | Total | <u>\$</u> | 15,915,610 |

Notes to Financial Statements December 31, 2004

Note 6 - Interfund Receivables, Payables, and Transfers (Continued)

The transfers from the General Fund to the Major and Local Road Funds, Special Police Protection Fund, additional nonmajor governmental funds, Building and Grounds Fund, and Fleet and Equipment Fund represent the use of unrestricted resources to finance those programs, in accordance with budgetary authorizations; the transfer from the Major Road Fund to the Local Road Fund represents the sharing of gas and weight tax revenues, in accordance with Public Act 51, plus additional transfers as allowed under Public Act 54 of 1999; the transfer from the Major Road Fund and Local Road Fund to nonmajor governmental funds represents the movement of resources to be used to service debt; and the transfer from the Fire Fund represents movement of resources to be used toward the purchase of capital outlay specifically for the fire department.

Note 7 - Long-term Debt

The City issues bonds to provide for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the City. County contractual agreements and installment purchase agreements are also general obligations of the government. Special assessment bonds provide for capital improvements that benefit specific properties, and will be repaid from amounts levied against those properties benefited from the construction. In the event that a deficiency exists because of unpaid or delinquent special assessments at the time a debt service payment is due, the City is obligated to provide resources to cover the deficiency until other resources (such as tax sale proceeds or a re-assessment of the district) are received. Long-term obligation activity can be summarized as follows:

| | Beginning | | | | Due Within |
|--|--------------|-----------|--------------|----------------|------------|
| | Balance | Additions | Reductions | Ending Balance | One Year |
| Governmental Activities General Obligation Bonds: | | | | | |
| Building Authority Bonds, Series 2002, payable through 2021 with interest at 3.12% to 4.75% | \$ 9,300,000 | \$ - | \$ (300,000) | \$ 9,000,000 | \$ 300,000 |

Advance and Current Refundings

During the year, the City, along with Oakland County, issued \$1,120,000 in general obligation bonds with an average interest rate of 2.65 percent. The proceeds of these bonds were used to advance refund \$1,050,000 of outstanding Robert Huber Drain bonds with an average interest rate of 6.40 percent. The net proceeds of \$1,090,575 (after payment of \$33,652 in underwriting fees, insurance, and other issuance costs) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the original bonds. As a result, the bonds are considered to be defeased and the liability for the bonds has been removed from the long-term obligation for the City. The advance refunding reduced total debt service payments over the next 11 years by approximately \$154,000, which represents an economic gain of approximately \$134,000.

In prior years, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust accounts' assets and liabilities for the defeased bonds are not included in the general purpose financial statements. At December 31, 2004, \$10,071,153 of bonds outstanding are considered defeased.

Notes to Financial Statements December 31, 2004

Note 7 - Long-term Debt (Continued)

No Commitment Debt - The City has issued Industrial Development Revenue Bonds and Economic Development Corporation bonds under state law, which authorizes municipalities under certain circumstances to acquire and lease industrial sites, buildings, and equipment and lease them to third parties. The revenue bonds issued are payable solely from the net revenue derived from the respective leases and are not a general obligation of the City. After these bonds are issued, all financial activity is taken over by the paying agent. The bonds and related lease contracts are not reflected in the City's financial statements. Information regarding the status of each bond issue, including possible default, must be obtained from the paying agent or other knowledgeable source.

Note 8 - Restricted Assets

Assets held at the County represent the City's pro rata share of monies received by the County in excess of the financing requirements of the sewer and drain systems in the amount of \$1,544,709 and \$177,356, respectively, and for the City's unspent portion of bond proceeds held for the construction of a sheriff substation in the amount of \$789,108. The County holds these monies to apply against future payment obligations of the City for future water and sewer system expansion and facility construction, as well as for future drain system projects. Oakland County has invested these monies and allocated interest earned as an increase to the amount due the City.

Note 9 - Risk Management

The City is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The City has purchased commercial insurance for medical claims and participates in the Michigan Municipal League risk pool program for workers' compensation claims and the Michigan Municipal League Risk Management Authority risk pool for claims relating to general liability, motor vehicles, and comprehensive property damage. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal League risk pool program operates as a common risk-sharing management program for local units of government in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Notes to Financial Statements December 31, 2004

Note 9 - Risk Management (Continued)

The Michigan Municipal Risk Management Authority (the "Authority") risk pool program operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk-sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the Authority that the Authority uses to pay claims up to the retention limits, the ultimate liability for those claims remains with the City.

The City estimates the liability for general claims that have been incurred through the end of the fiscal year, including claims that have been reported as well as those that have not yet been reported. These estimates are reported in the Insurance (Internal Service) Fund. Changes in the estimated liability for the past two fiscal years were as follows:

| | 2004 | | 2003 |
|---|-------------|-----------|-----------------------|
| Estimated liability - Beginning of year | \$ | 268,673 | \$ 450,501 |
| Estimated claims incurred, including changes in estimates | | 138,916 | (13 030) |
| Claim payments | | (135,187) | (13,939) (167,889) |
| Estimated liability - End of year | \$ | 272,402 | \$ 268,673 |
| Estimated liability for claims reported | \$ | 94,402 | \$ 90,673 |
| Estimated liability for claims incurred but not reported | | 178,000 | 178,000 |
| Total estimated liability | \$ | 272,402 | \$ 268,673 |

Note 10 - Defined Contribution Pension Plan

The Rochester Hills Group Pension Plan, which is administered by the City, provides pension benefits for substantially all of its full-time employees, City Council members, and paid-on-call firefighters through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees over 18 years of age are eligible to participate after a six-month probationary period. As established by the pension contract, the City contributes 12 percent of employees' gross earnings and employees can match those contributions. In accordance with these requirements, the City contributed \$1,707,510 during the current year and employees contributed \$29,571. The City's contributions for each employee (plus interest allocated to the employee's account) are fully vested after five years of continuous service.

Notes to Financial Statements December 31, 2004

Note 11 - Other Postemployment Benefits

The City has established a Retiree Health Benefit Program, which is composed of a health savings plan and a supplemental benefit plan. All active full-time employees who have completed their six-month probationary period are eligible for the health savings plan. The supplemental benefit plan is available only to those employees with 10 years of credited service as of March 21, 2001. The City contributes to the health savings plan on a monthly basis a minimum of 3 percent of the compensation of all eligible employees. Employees must contribute the monetary equivalent of up to 16 hours of unused annual leave time over the maximum 40-hour accrual to the health savings plan annually. Voluntary contributions are not permitted. Benefits paid out depend solely on amounts contributed to the plan plus investment earnings. During the year, the City contributed, from various funds, \$496,925 to the health savings plan.

Expenditures for postemployment health care costs for employees participating in the supplemental benefit plan are paid as the applicable costs are incurred. During the year, this amounted to approximately \$19,000.

Upcoming Reporting Change - The Governmental Accounting Standards Board has recently released Statement Number 45, Accounting and Reporting by Employers for Postemployment Benefits Other Than Pensions. The new pronouncement provides guidance for local units of government in recognizing the cost of retiree health care, as well as any "other" postemployment benefits (other than pensions). The new rules will cause the government-wide financial statements to recognize the cost of providing retiree health care coverage over the working life of the employee, rather than at the time the health care premiums are paid. The new pronouncement is effective for the year ending December 31, 2008.

Note to Required Supplemental Information

Budgetary Information - Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America for all City funds except that operating transfers and debt proceeds have been included in the "revenue" and "expenditures" categories, rather than as an "other financing sources (uses)." All annual appropriations lapse at fiscal year end. During the year, the budget was amended in a legally permissible manner.

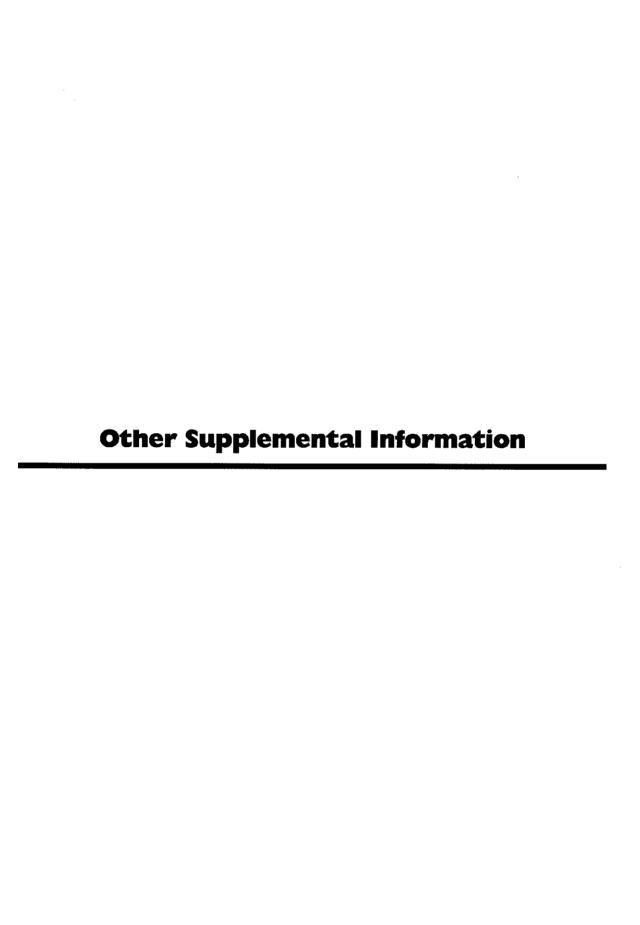

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. On or before the first Monday in July, each department director submits to the mayor a proposed operating budget for the next fiscal year.
- 2. The mayor prepares a comprehensive budget, which is presented to the City Council at the first meeting in August.
- 3. Public hearings are conducted to obtain residents' comments.
- 4. Prior to November I, the budget is legally adopted by the City Council.
- 5. Supplemental appropriations to the City's budget require the approval of the City Council.

The budget document presents information by fund, function, department, and line items. The legal level of budgetary control adopted by the governing body is the fund level.

Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Excess of Expenditures Over Appropriations in Budgeted Funds - The City had no significant expenditure budget variances for the year.

Nonmajor Special Revenue Funds

Special Revenue Funds account for resources legally restricted to expenditures for specified current operating purposes or to the acquisition of furniture, fixtures, machinery, equipment, or other relatively minor or comparatively short-lived fixed assets.

R.A.R.A. Millage Fund - This fund accounts for the special millage for Rochester-Avon Recreation Authority (R.A.R.A.) activities.

Bike Path Fund - This fund accounts for the special millage used primarily to maintain existing bike pathways.

Solid Waste Management Fund - This fund accounts for solid waste issues.

Public Improvement Fund - This fund accounts for the special millage for drainage improvement.

Older Persons' Millage Fund - This fund accounts for the special millage for the Older Persons' Commission activities.

Stoney Creek Perpetual Care Fund - This fund accounts for monies collected from sales of cemetery lots and spaces. A portion of this money is then deposited in this fund until such time as the cemetery is full. The remaining funds will then be used for ongoing cemetery maintenance.

Tree Fund - This fund accounts for monies collected from tree deposits. The monies can only be used for maintaining and preserving wooded areas.

Nonmajor Debt Service Funds

Debt Service Funds account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Road Improvement 2001 Fund - This fund accounts for payment of debt created for improvement to roads using Act 175 bonds. Revenue is generated from tax levies and expenditures are made for principal and interest.

Drain Fund - This fund accounts for payment of debt created for drain construction and maintenance. Revenue is generated from tax levies and expenditures are made for principal and interest.

Local Road Improvement 1987, 1988, 1989, 1994, 1995, 2001, and 2002 Funds - These funds account for payment of debt created for the improvement of local roads using Act 175 bonds. Revenue is generated from special assessment collections, and funds received under Act 51 are transferred to these funds from the Local Road Special Revenue Fund for the City's share. Expenditures are made for principal and interest.

OPC Building Bond 2001 Series Fund - This fund accounts for payment of debt created from the construction of a senior citizens building. Revenue is generated from tax levies and expenditures are made for principal and interest.

Refunding General Obligation Bond Series 1998 Fund - This fund accounts for payment of debt created for the refunding of the Park and Museum, Park and Recreation, and the Library Building bonds' called portion. Revenue is generated from tax levies and expenditures are made for principal and interest.

Refunding Michigan Transportation Bond Series 1998 Fund - This fund accounts for payment of debt created for the refunding of the 1987 Series, 1988 Series Act 175, and the 1990 Series Michigan Transportation (Local Road Improvement 1987 Fund, Local Road Improvement 1988 Fund, and Major Road Improvement 1990 Fund) called bonds. Revenue for the 1987 and 1988 Series Act 175 bonds is generated from special assessment collections, and funds received under Act 21 are transferred to this fund from the Local Road and Major Road Special Revenue Funds for the City's portion. Expenditures are made for principal and interest.

Refunding Bond Series 2002 Fund - This fund account for payment of debt created for refunding of Series 1989, 1990A, 1990B, and 1993 bonds (Park and Museum Bonds, Parks and Recreation Bonds, and Library Building Bonds) callable portion. Revenue is generated from tax levies and expenditures are made for principal and interest.

Municipal Building Bond Series 2002 Fund - This fund accounts for payment of debt created from the construction of the municipal building addition. Revenue is generated from tax levies and expenditures are made for principal and interest.

Nonmajor Capital Projects Funds

Capital Projects Funds account for the purchase or construction of major capital facilities that are not financed by Proprietary Funds.

Capital Improvement Fund - This fund accounts for the capital purchases and construction by the City. Revenue is transferred from other City funds, or generated via grants or bond proceeds. Expenditures incurred for the purchases or development are recorded in this fund.

Pedestrian Pathway Construction Fund - This fund accounts for monies received and expended in connection with the Series 1982 General Obligation Bond issuance for the purpose of constructing pedestrian pathways.

OPC Building Construction Fund - This fund accounts for monies received and expended for the purpose of constructing a senior citizen activity building. Revenue was generated from bond proceeds. Expenditures are for purchase of land, development, and construction of a building.

Road Improvement 2001 Construction Fund - This fund accounts for monies received and expended for the purpose of constructing and improving roads. Revenue was generated from bond proceeds. Expenditures are for development and construction of roads.

Local Road SAD 2001 Construction Fund - This fund accounts for monies received and expended for the purpose of constructing local roads. Revenue was generated from bond proceeds. Expenditures are for development and construction of local roads.

Road Improvement 2002 Construction Fund - This fund accounts for monies received and expended for the purpose of constructing and improving roads. Revenue was generated from bond proceeds. Expenditures are for development and construction of roads.

Fire Apparatus Fund - This fund accounts for the purchase and replacement of various major fire department capital apparatuses.

Municipal Building Construction Fund - This fund accounts for monies received and expended for the purpose of constructing the addition to the City's municipal building. Revenue was generated from bond proceeds. Expenditures are for construction of the buildings addition.

Internal Service Funds

Internal Service Funds account for the financing of goods or services provided by one City department or agency to other departments or agencies primarily on a cost-reimbursed basis.

Building and Grounds Fund - This fund accounts for the costs of operating and maintaining the land and buildings of the City, excluding the water and sewer building.

Management Information Systems Fund - This fund accounts for the costs of data processing services provided to various City departments. The actual cost of materials and services is reimbursed to this fund by the user departments.

Fleet Equipment Fund - This fund accounts for the costs of acquiring and maintaining City-operated vehicles used by various City departments. The actual cost of labor and materials is reimbursed to this fund by the user departments.

Insurance Fund - This fund accounts for the City's self-insured premium payments for general liability, fleet, and property insurance. Recorded in this fund are the reserves and the estimated IBNR liability.

Fiduciary Funds

Agency Funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or funds. Agency Funds, which are custodial in nature (assets equal liabilities), do not involve measurement of results of operations.

Agency Funds

Trust and Agency Fund - This fund accounts for advance tax payments, delinquent taxes, and licensing recorded here until received and/or disbursed.

Tax Collection Fund - This fund accounts for the collection and distribution of current City tax levies.

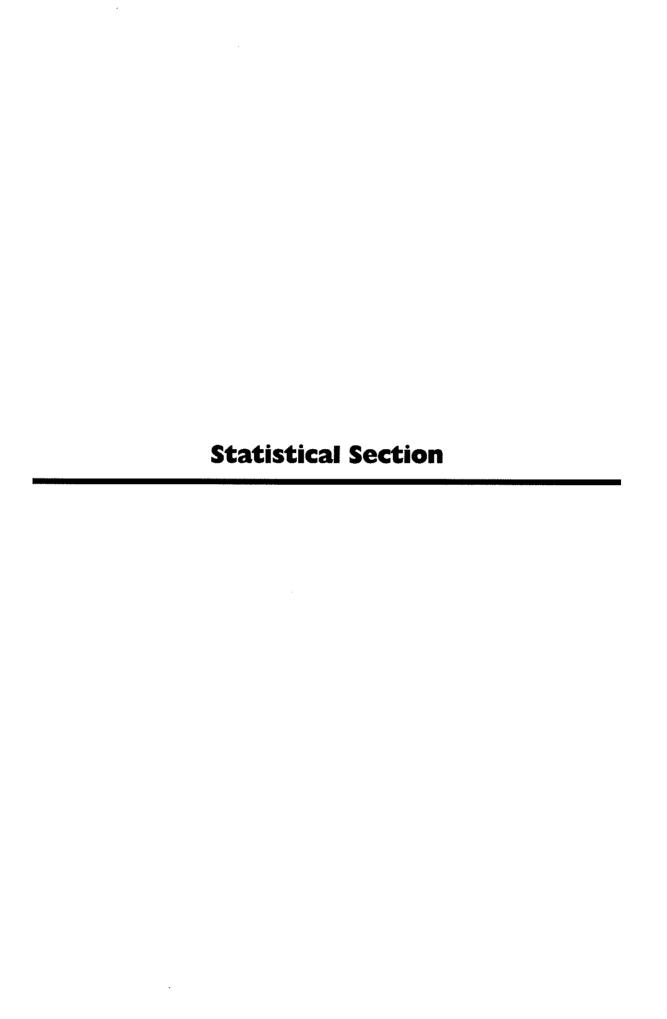

Payroll Fund - This fund accounts for monies aggregated for payroll and payroll-related liabilities.

Notes:

(1) Act 279, Public Acts of Michigan, 1909, as amended, and the City Charter of the City of Rochester Hills provide that the net indebtedness of the City shall not exceed 10 percent of all assessed valuation.

Bonds that shall be excluded in this computation of net indebtedness, according to said Act, are as follows:

- Special assessment bonds
- Mortgage bonds
- Motor Vehicle Highway Fund Bonds
- Revenue bonds
- Bonds issued, or contracts, or assessment obligations incurred, to comply with an order of the Water Resources Commission or a court of competent jurisdiction
- Other obligations incurred for water supply, drainage, sewage, or refuse disposal projects necessary to
 protect the public health by abating pollution
- (2) The Municipal Finance Act provides that the total debt in Special Assessment Bonds, which would require that the City pledge its full faith and credit, shall not exceed 12 percent of the assessed valuation of taxable property of the City, nor shall such bonds be issued in any calendar year in excess of 3 percent unless voted. The Special Assessment Bond percent limit is in addition to the 10 percent limit as provided by Act 279, Public Acts of Michigan, 1909, as amended, as described in Note 1 above.

Miscellaneous Statistics December 31, 2004

Area: 32.2 square miles

Form of government: Home rule city (Council-Mayor form)

History of city: Avon Township (City of Rochester Hills) was first formed

April 6, 1835. In 1978, Avon Township became the Charter Township of Avon. The present City Charter as adopted May 22, 1984 became effective November 20,

1984.

Population: 68,825 (year 2000 census)

Fiscal year begins: January I

Number of city employees 244 regular, 67 seasonal, 40 part-time, and 423 election

(excluding firefighters): workers

Fire protection: Five stations, 23 regular, and 94 paid-on-call firefighters

Police protection: City contracts police protection from the Oakland

County sheriff's department. Currently, 58 regular

officers are contracted.

Streets: 16.14 miles of state trunk lines, 38.84 miles of county

roads, 36.66 miles of major roads, and 206.5 miles of

local roads

Economic Development Corporation December 31, 2004

The Economic Development Corporation of the City of Rochester Hills (the "Corporation") issues tax-exempt revenue bonds under authority of the Michigan Economic Development Corporation Act. Proceeds of the debt issues are used to purchase or construct facilities, which are leased to industrial and commercial enterprises under contracts that provide sufficient revenue to satisfy principal and interest requirements of the related bond issues. These contracts further provide for the transfer of the related property to the lessee at the time such indebtedness becomes paid in full.

The Corporation's bond issues are payable solely from the net revenues derived from the financed projects and are collateralized by mortgages on the underlying project assets. The leased property and the bond issues are not assets or general obligations of the Corporation and, accordingly, are not recognized in the financial statements of the City.

Revenue bonds issued by the Corporation as of December 31, 2004 are as follows:

| Issue | Lessee | Original Issue | Interest Rate | |
|---|-----------------------------|-----------------------|------------------|--|
| 1985 Demand Adjustable Rate Limited Obligation Revenue Bonds, payable through 2016 | Peachwood Center Associates | \$ 9,000,000 | Variable | |
| 1986 Limited Obligation Economic Development Revenue Bonds, payable through 2007 | Bond Street Company | 1,250,000 | Variable | |
| 1986 Limited Obligation Economic Development Revenue Bonds, payable through 2011 | KY Development Company | 1,420,000 | Variable | |
