

BROWNFIELD REDEVELOPMENT FINANCING ACT (EXCERPT)

Act 381 of 1996

125.2663 Brownfield plan; provisions.

Sec. 13.

(1) Subject to section 15, the board may implement a brownfield plan. The brownfield plan may apply to 1 or more parcels of eligible property whether or not those parcels of eligible property are contiguous and may be amended to apply to additional parcels of eligible property. Except as otherwise authorized by this act, if more than 1 parcel of eligible property is included within the plan, the tax increment revenues under the plan shall be determined individually for each parcel of eligible property. Each plan or an amendment to a plan shall be approved by the governing body of the municipality and shall contain all of the following:

(a) A description of the costs of the plan intended to be paid for with the tax increment revenues or, for a plan for eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, a listing of all eligible activities that may be conducted for 1 or more of the eligible properties subject to the plan.

(b) A brief summary of the eligible activities that are proposed for each eligible property or, for a plan for eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, a brief summary of eligible activities conducted for 1 or more of the eligible properties subject to the plan.

(c) An estimate of the captured taxable value and tax increment revenues for each year of the plan from each parcel of eligible property, or from all eligible properties qualified on the basis that the property is owned or under the control of a land bank fast track authority, and in the aggregate. The plan may provide for the use of part or all of the captured taxable value, including deposits in the local site remediation revolving fund, but the portion intended to be used shall be clearly stated in the plan. The plan shall not provide either for an exclusion from captured taxable value of a portion of the captured taxable value or for an exclusion of the tax levy of 1 or more taxing jurisdictions unless the tax levy is excluded from tax increment revenues in section 2(cc), or unless the tax levy is excluded from capture under section 15.

(d) The method by which the costs of the plan will be financed, including a description of any advances made or anticipated to be made for the costs of the plan from the municipality.

(e) The maximum amount of note or bonded indebtedness to be incurred, if any.

(f) The duration of the brownfield plan, which shall not exceed the lesser of the period

authorized under subsections (4) and (5) or 30 years.

(g) An estimate of the impact of tax increment financing on the revenues of all taxing jurisdictions in which the eligible property is located.

(h) A legal description of each parcel of eligible property to which the plan applies, a map showing the location and dimensions of each eligible property, a statement of the characteristics that qualify the property as eligible property, and a statement of whether personal property is included as part of the eligible property. If the project is on property that is functionally obsolete, the taxpayer shall include, with the application, an affidavit signed by a level 3 or level 4 assessor, that states that it is the assessor's expert opinion that the property is functionally obsolete and the underlying basis for that opinion.

(i) Estimates of the number of persons residing on each eligible property to which the plan applies and the number of families and individuals to be displaced. If occupied residences are designated for acquisition and clearance by the authority, the plan shall include a demographic survey of the persons to be displaced, a statistical description of the housing supply in the community, including the number of private and public units in existence or under construction, the condition of those in existence, the number of owner-occupied and renter-occupied units, the annual rate of turnover of the various types of housing and the range of rents and sale prices, an estimate of the total demand for housing in the community, and the estimated capacity of private and public housing available to displaced families and individuals.

(j) A plan for establishing priority for the relocation of persons displaced by implementation of the plan.

(k) Provision for the costs of relocating persons displaced by implementation of the plan, and financial assistance and reimbursement of expenses, including litigation expenses and expenses incident to the transfer of title, in accordance with the standards and provisions of the uniform relocation assistance and real property acquisition policies act of 1970, Public Law 91-646, 84 Stat. 1894.

(l) A strategy for compliance with 1972 PA 227, MCL 213.321 to 213.332.

(m) A description of proposed use of the local site remediation revolving fund.

(n) Other material that the authority or governing body considers pertinent.

(2) The percentage of all taxes levied on a parcel of eligible property for school operating expenses that is captured and used under a brownfield plan and all tax increment finance plans under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, or the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, shall not be greater than the combination of the plans' percentage capture and use of all local taxes levied for purposes other than for the payment of principal of and interest on either obligations approved by the electors or obligations

pledging the unlimited taxing power of the local unit of government. This subsection shall apply only when taxes levied for school operating purposes are subject to capture under section 15.

(3) Except as provided in this subsection and subsections (5), (15), and (16), tax increment revenues related to a brownfield plan shall be used only for costs of eligible activities attributable to the eligible property, the captured taxable value of which produces the tax increment revenues, including the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities attributable to the eligible property, and the reasonable costs of preparing a work plan or remedial action plan for the eligible property, including the actual cost of the review of the work plan or remedial action plan under section 15. For property owned or under the control of a land bank fast track authority, tax increment revenues related to a brownfield plan may be used for eligible activities attributable to any eligible property owned or under the control of the land bank fast track authority, the cost of principal of and interest on any obligation issued by the authority to pay the costs of eligible activities, the reasonable costs of preparing a work plan or remedial action plan, and the actual cost of the review of the work plan or remedial action plan under section 15. Tax increment revenues captured from taxes levied by this state under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906, or taxes levied by a local school district shall not be used for eligible activities described in section 2(1)(iv)(E).

(4) Except as provided in subsection (5), a brownfield plan shall not authorize the capture of tax increment revenue from eligible property after the year in which the total amount of tax increment revenues captured is equal to the sum of the costs permitted to be funded with tax increment revenues under this act.

(5) A brownfield plan may authorize the capture of additional tax increment revenue from an eligible property in excess of the amount authorized under subsection (4) during the time of capture for the purpose of paying the costs permitted under subsection (3), or for not more than 5 years after the time that capture is required for the purpose of paying the costs permitted under subsection (3), or both. Excess revenues captured under this subsection shall be deposited in the local site remediation revolving fund created under section 8 and used for the purposes authorized in section 8. If tax increment revenues attributable to taxes levied for school operating purposes from eligible property are captured by the authority for purposes authorized under subsection (3), the tax increment revenues captured for deposit in the local site remediation revolving fund also may include tax increment revenues attributable to taxes levied for school operating purposes in an amount not greater than the tax increment revenues levied for school operating purposes captured from the eligible property by the authority for the purposes authorized under subsection (3). Excess tax increment revenues from taxes levied for school operating purposes for eligible activities authorized under subsection (15) by the Michigan economic growth authority shall not be captured for deposit in the local site remediation revolving fund.

(6) An authority shall not expend tax increment revenues to acquire or prepare eligible

property, unless the acquisition or preparation is an eligible activity.

(7) Costs of eligible activities attributable to eligible property include all costs that are necessary or related to a release from the eligible property, including eligible activities on properties affected by a release from the eligible property. For purposes of this subsection, “release” means that term as defined in section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101.

(8) Costs of a response activity paid with tax increment revenues that are captured pursuant to subsection (3) may be recovered from a person who is liable for the costs of eligible activities at an eligible property. This state or an authority may undertake cost recovery for tax increment revenue captured. Before an authority or this state may institute a cost recovery action, it must provide the other with 120 days' notice. This state or an authority that recovers costs under this subsection shall apply those recovered costs to the following, in the following order of priority:

(a) The reasonable attorney fees and costs incurred by this state or an authority in obtaining the cost recovery.

(b) One of the following:

(i) If an authority undertakes the cost recovery action, the authority shall deposit the remaining recovered funds into the local site remediation fund created pursuant to section 8, if such a fund has been established by the authority. If a local site remediation fund has not been established, the authority shall disburse the remaining recovered funds to the local taxing jurisdictions in the proportion that the local taxing jurisdictions' taxes were captured.

(ii) If this state undertakes a cost recovery action, this state shall deposit the remaining recovered funds into the revitalization revolving loan fund established under section 20108a of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20108a.

(iii) If this state and an authority each undertake a cost recovery action, undertake a cost recovery action jointly, or 1 on behalf of the other, the amount of any remaining recovered funds shall be deposited pursuant to subparagraphs (i) and (ii) in the proportion that the tax increment revenues being recovered represent local taxes and taxes levied for school operating purposes, respectively.

(9) Approval of the brownfield plan or an amendment to a brownfield plan shall be in accordance with the notice and approval provisions of this section and section 14.

(10) Before approving a brownfield plan for an eligible property, the governing body shall hold a public hearing on the brownfield plan. Notice of the time and place of the hearing shall be given by publication twice in a newspaper of general circulation designated by the municipality, the first of which shall be not less than 20 or more than 40 days before the date set for the hearing.

(11) Notice of the time and place of the hearing on a brownfield plan shall contain all of the following:

(a) A description of the property to which the plan applies in relation to existing or proposed highways, streets, streams, or otherwise.

(b) A statement that maps, plats, and a description of the brownfield plan are available for public inspection at a place designated in the notice and that all aspects of the brownfield plan are open for discussion at the public hearing required by this section.

(c) Any other information that the governing body considers appropriate.

(12) At the time set for the hearing on the brownfield plan required under subsection (10), the governing body shall provide an opportunity for interested persons to be heard and shall receive and consider communications in writing with reference to the brownfield plan. The governing body shall make and preserve a record of the public hearing, including all data presented at the hearing.

(13) Not less than 20 days before the hearing on the brownfield plan, the governing body shall provide notice of the hearing to the taxing jurisdictions that levy taxes subject to capture under this act. The authority shall fully inform the taxing jurisdictions about the fiscal and economic implications of the proposed brownfield plan. At that hearing, an official from a taxing jurisdiction with millage that would be subject to capture under this act has the right to be heard in regard to the adoption of the brownfield plan.

(14) The authority shall not enter into agreements with the taxing jurisdictions and the governing body of the municipality to share a portion of the captured taxable value of an eligible property. Upon adoption of the plan, the collection and transmission of the amount of tax increment revenues as specified in this act shall be binding on all taxing units levying ad valorem property taxes or specific taxes against property located in the zone.

(15) Except as provided by subsection (18), if a brownfield plan includes the capture of taxes levied for school operating purposes or the use of tax increment revenues related to a brownfield plan for the cost of eligible activities attributable to more than 1 eligible property that is adjacent and contiguous to all other eligible properties covered by the development agreement, whether or not the captured taxes are levied for school operating purposes, approval of a work plan by the Michigan economic growth authority before January 1, 2008 to use school operating taxes and a development agreement between the municipality and an owner or developer of eligible property are required if the revenues will be used for infrastructure improvements that directly benefit eligible property, demolition of structures that is not response activity under part 201 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101 to 324.20142, lead or asbestos abatement, or site preparation that is not response activity under section 20101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.20101. The eligible activities to be conducted described in this subsection shall be consistent with the work plan submitted by the authority to the Michigan economic growth authority. The

department's approval is not required for the capture of taxes levied for school operating purposes for eligible activities described in this subsection.

(16) The limitations of section 15(1) upon use of tax increment revenues by an authority shall not apply to the following costs and expenses:

(a) In each fiscal year of the authority, \$75,000.00 for the following purposes for tax increment revenues attributable to local taxes:

(i) Reasonable and actual administrative and operating expenses of the authority.

(ii) Baseline environmental assessments, due care activities, and additional response activities related directly to work conducted on prospective eligible properties prior to approval of the brownfield plan.

(b) Reasonable costs of preparing a work plan or remedial action plan or the cost of the review of a work plan for which tax increment revenues may be used under section 13(3).

(17) A brownfield authority may reimburse advances made by a municipality under section 7(3), a land bank fast track authority, or any other person or entity for costs of eligible activities with any source of revenue available for use of the brownfield authority under this act and may enter into agreements related to those reimbursements. A reimbursement agreement for these purposes and the obligations under that reimbursement agreement shall not be subject to section 12 or the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(18) If a brownfield plan includes the capture of taxes levied for school operating purposes, approval of a work plan by the Michigan economic growth authority in the manner required under section 15(14) to (16) is required in order to use tax increment revenues attributable to taxes levied for school operating purposes for purposes of eligible activities described in section 2(1)(iv)(E) for 1 or more parcels of eligible property. The work plan to be submitted to the Michigan economic growth authority under this subsection shall be in a form prescribed by the Michigan economic growth authority. The eligible activities to be conducted and described in this subsection shall be consistent with the work plan submitted by the authority to the Michigan economic growth authority. The department's approval is not required for the capture of taxes levied for school operating purposes for eligible activities described in this section.
