November 9, 2005

To Rochester Hills City Council:

As a long time resident of Rochester Hills I am deeply interested in being a member of the Green Space Advisory Board. I have watched Rochester Hills go from a small self-contained semi-rural community over the last 20 years into one of the most dynamic and prestigious communities in Oakland County. A number of the changes during that time have been good. However, I think we could have done more and now have the opportunity to do more in regards to preserving the environment in Rochester Hills. I believe that our unique environment has been one of the factors that has drawn so many new residents to our community.

As land is identified for preservation, more than likely we will have a number of issues that we will need to address and resolve. As a Green Space Board member I bring a number of skills to the table including, project management, training, and the ability to combine disparate initiatives into a consolidated project.

My qualifications include being a founding member of the Clinton River Trial committee, founding member of Save Open Committee and a member of the Open Space Preservation Committee. I am also a member of Oakland County Land Conservancy and Clinton River Watershed. I have been active in the Rochester Hills community for a number of years with the majority of my involvement centered around environmental and preservation issues.

I truly realize that we have to balance development, quality of life and the remaining green space available in Rochester Hills. I would like to be part of the committee that enables that vision so that we can continue to enjoy the unique environment that we have in Rochester Hills

Thank-you,

A handwritten signature in cursive script that reads "Deborah Wagner". The signature is written in black ink and is positioned above the printed name.
