Mr. Jeff O'Brien

The Road Commission of Oakland County
31001 Lahser Road
Beverly Hills, MI 48025

RE: Crooks Road Project
Auburn to M-59 Utility Relocation, City of Rochester, Oakland County

Dear Mr. O'Brien:

Below is an updated estimate for Edison relocation work with additional breakdown of costs associated with Oakland County's Crook Road projects from Auburn Road to M-59.

Material	\$180,324
Labor (Contract)	\$583,103
<u>Equipment</u>	<u>\$145,776</u>
TOTAL	\$909,203

The labor portion of this estimate will be provided by a contractor. Detroit Edison considers this contractor to be continuous up to the expiration of their current contract. Please note that this price is valid for six months and is dependent upon obtaining required permits and rights of way.

This estimate does not include the \$43,029.98 estimate for line clearance provided by Hope Cooley in her August 3, 2005 letter.

Please provide authorization for Detroit Edison to proceed with the aforementioned utility relocation and to invoice The Road Commission of Oakland County in the amount of \$909,203 payable upon your receipt of federal fund granting.

Sincerely,

Carl MacNeil
