Subject: Membership Program grant amendment

To: <mckayp@rochesterhills.org>

Pat,

I looked over the proposed amendment to the project agreement for the Dairy Barn grant from the Michigan Dept. of Natural Resources. The language is acceptable for your purposes. Since the original agreement was approved by City Council and it did not authorize/delegate any associated approval authority, and the amendment could be considered a major change, it is prudent to have City Council approve the amendment. Since you are already going to Council for approval of the rates, it makes sense to combine your effort in one appearance. If you have any questions feel free to call or email me.
