TAKEN BY: BOPPJ DPS ON 12/07/2005

INQUIRY NOTES

Employee from CRS Services called to report that it is very dangerous to leave their parking lot because cars are parked on the street, real close to the drive approach making it difficult to see around them when they want to pull out onto Rochester Industrial. She stated that there are "No Parking this side of street" signs across the street and now everyone parks on their side of the street making it dangerous because of the site distance. She would like No Parking signs on there side of the street too.
