RE: 370 N. Adams

---

A building permit application and construction plans for Mitchell's Fish Market located at 370 N. Adams were submitted on January 5, 2006. Our consultant has reviewed them and a rejection letter was sent on January 31, 2006.

At this point in time I am not aware of any issues in the rejection letter that would prevent Mitchell's from occupying this space once they have met all code requirements, received a permit and approval of all related inspections.
