Honorable Mayor Pat Somerville  
And Honorable Council Members  
City of Rochester Hills, MI 48307  
Fax: 248-656-4744

Subject: Express Thanks to the Honorable Mayor and Council Members to nominate my Name for Leisure Committee:

Dear Sir/Madam:

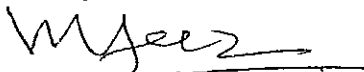

When your respected coordinator Ms. Susan informed me about my nomination/appointment on the above subject, it was great pleasure to receive this news. The news stimulated my mind and body to think about our elected member's decision making process to accommodate diversity and make them as an integral part of the collective community. Today, there is no wonder to see why the City of Rochester Hills is considered to be the one of the best community to live? The answer is available in the citizen's consciousness process in which they elect their great leaders who never leave the basic principles of justice and fairness to "all" while making their decisions. This is the key of this secret to build and recognize great communities in which one feels proud of them.

While living in the City of Rochester Hills, I have learned that it is not a man's color, race that makes a good society but it is kinds of leadership, which matters how one's feels, act and reinforce the driving forces to move a head. With the same purpose in my mind, I was motivated to run as an Executive Wayne County in 2006 elections and try to apply those principles that I have been taught as a city resident. As I am living in the Wayne County, it will be a conflict of interest to accept the offer to serve in a committee. At present, I am a resident of Wayne County and my family still lives in Rochester Hills. I feel proud myself to mention here that my two daughters went to school in the City of Rochester Hills and the eldest one is graduating from the International Academy in the fall of 2006. This city has given my family too much that my elder daughter is accepted in the best Medical Schools in the country and the younger one is in the process of maintaining the best grades in her school. It would have not been possible if our leaders would have not worked very hard for us and our citizens would have not chosen our leaders carefully.

The city employees under your leadership are equally credited for the high performance of making the Rochester Hills, one of the best cities to live in America. It is because that your leadership makes all efforts day and night to provide best available resources to the city employees, police and fulfill the community needs in order to maintain best quality of life in the city.

Thank you and may God bless all of you.

Sincerely,

Mohammad A. Hafeez
