Dear Mr. Shumejko:

Re: Release of Limited Access to Extend Technology Drive  
Tract 1142

The city's request to have the Michigan Department of Transportation (MDOT) release limited access right of way along Adams Road has been approved with the following conditions:

1. Allow egress for right turn only movement to eastbound direction. No direct left turn movement across boulevard section to westbound direction. Allow ingress for right turn only movement. No direct left turn movement from westbound direction.
2. The proposed driveway does not conflict with future deceleration lane for the eastbound M-59 entrance ramp.
3. Permit and any guardrail work must be approved by the Road Commission for Oakland County.

At this time, this release has been assigned to our technical unit so they may prepare a legal description and sketch. Once that is completed, you will be notified.

Please submit final plans for our review when available.

Sincerely,

Linda Restum  
Excess Property Manager
