Advisory Traffic and Safety Board
April 11, 2006
Meeting Minutes

Traffic Control Orders:

2006-0276 Parking Restrictions, PK-36, School Road, Section 24

Mr. Matich said they recently reviewed the current traffic signage for School Road, from John R Road to Dequindre Road based on the construction activities that are going on there. As a result, we found regulatory parking restriction signs missing from the field for an old Traffic Control Order, PK-36. There is no parking on the south side of School Road, from 250' west of Parke Street to a 750' east of Parke Street. Formerly there was a City park on the north side with baseball fields, but since then the baseball fields have been relocated to the south side of School Road. The Director of the Parks Department says there is no problem now with parking on School Road. We are recommending that TCO PK-36 be rescinded.

Chairperson Colling asked if the City still owned the land and if it were still parkland. Mr. Matich said he could go back and check on it with the Parks Department, but on his City map it was no longer highlighted in green, as was the other park property.

Motion to approve by Mr. Hunter
Second by Mr. Moore

Ayes: All
Nays: None
Absent: Buiteweg
