**Subject:** Summary of Brooklands Alleyways

### **Brooklands Alleyways**

John stated that as the Public alleys stand right now they are the City's to maintain. He offered 3 options for dealing with them in the future.

- 1) Create an ordinance similar to that for 5' wide concrete sidewalks indicating that the adjacent property owner, in this case the business/Auburn Road side property owners, are responsible for their maintenance and upkeep.
- 2) Create an SAD to improve the alleys whether it be paving them, upgrading the gravel and chloriding, etc or whatever.
- 3) Vacate the alleyways all together, however, this would limit any future oldtowne type redevelopment.
