**Re: Bolinger Street Paving**

I have lived on Bolinger Street since 1977. When Pulte needed an egress for subdivision (Heatherwood), he promised at that meeting that if the city would allow him to use Bolinger Street, as soon as sewers were put down the street, that he would pave the road. What happened?

You were assessing each lot owner dues of \$12,000 for paving. I have a spare lot, so this doubles for me. I would please ask for your help on this matter. I am a senior citizen and feel this assessment is far and above reasonable expectations for all residents on the dirt road part of Bolinger.

If this is approved and I hope it does NOT, does the city charge interest by putting property assessment on my taxes?
