ANCIENT ORCHARD

Description of Proposed Work:

ENCLOSE LOT WITH 6' FENCE FOR PROTECTION FROM DEER

The Applicant hereby certifies that the property (resource) where work will be undertaken has, or will have before the proposed project completion date, a fire alarm system or a smoke alarm complying with the requirements of the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125-1531. (Certification required pursuant to Public Act 67, amended April 20, 2004, an Amendment to Public Act 169 of 1970, Michigan's Local Historic District Act).

The Applicant understands and acknowledges that any work authorized by the Historic Districts Commission is required to be inspected by City Inspectors, and by his/her signature below, the Applicant confirms that he/she consents to entry onto the subject property for purposes of inspection(s). The Applicant will notify the Planning & Development Department upon completion of the approved work.

September 3, 2008

Dear HDC Board Members,

We have recently purchased the 2.8 acre corner lot at Washington and Winkler Mills Roads that was once an orchard. We have begun plans to “reconstruct” an orchard and garden on the site.

As you all know deer are a major problem for gardeners (and drivers!) in our area. We would like to construct a 75 inch fence (see photos and description separately) around the perimeter of the site to help keep the deer out of the orchard. We will have posts (like the snowy picture) every ten feet.

While initially the fencing will be visible along Washington Road, our plan is to plant trees that will help disguise it in time.

If you could review the pictures and description of the fencing and let us know your thoughts on it, we would appreciate it.

Sincerely,

Nathaniel & Bryn Brock

better together

Bekaert 14g Fixed Knot Exclusion Fence

Are you looking to stop the deer invasion on your property?

Look no further than Bekaert's new Fixed Knot Exclusion Fence.

Our new 90 inch Fixed Knot Exclusion Fence is tall enough to keep the most determined buck out of your orchard, vineyard, or garden - But it's lightweight for easier installation.

This product is an ideal replacement for double stack or tall hinge joint exclusion fences. Our design and use of solid vertical stay wires provides the additional strength you need - with virtually no maintenance.

Plus our Class 3 (heavy coat) galvanization will ensure long life versus Class 1 or commercial coated fence.

Once you learn more about Bekaert's Fixed Knot Exclusion Fence we know you'll want to...

Build a better longer lasting fence with Bekaert.

Advantages:

- Longer Life
- High Strength
- High Tensile Wire
- Fewer Posts and Less Maintenance
- Class 3 Galvanized
- Fixed Knot Design
- Solid Vertical Stay Wire

Product Number	Fence Design	Height	Vertical Stay Spacing	Roll Length	Top and Bottom Wire Diameter	Main Wire Diameter	Roll Weight	Finish
