Crash Data

I ran a crash report from 01/01/13 to present. Several crashes from prior years showed in search as well. Not sure why, but I included in summary anyhow.

2010 - 1

2011 - 0

2012 - 1

2013 - 1 (another crash appeared, however, it was along private road Mountain Cr)

2014 - 0

2015 - 2 (1 ice)

2016 – 1 (snow)

2017 – 1

2018 - 0

Based on traffic crash data, there wasn't a pattern of crashes.
