| Firm Established: | 2009 | 2016 | 1987 |
| Years in Business: | 10+ years | 7 years | 36 years |
| Type of Organization: | Corporation | Corporation | Corporation |
| How many full-time employees? | 16 | 115 | 19 |
| How many part-time employees? | 2 | 0 | |
| How many years providing catch basin cleaning? | Has been providing for over 10 years. | Has been providing for7 years. | Has been providing for 8 years. |
| Description of the projects and services you will provide to the City. | Thorough and professional catch basin cleaning services and manufactured treatment devices that comply with all relevant regulations and permits, effective waste management practices to ensure the proper functioning and maintenance of the stormwater system, Reporting and communication will allow the City to monitor and track the progress and quality of the cleaning services. List of equipment and services provided. | Project experience listed in response. | Safeway shall provide personnel, equipment, tools, materials, supervision and all other items and services to perform the work outlined in the RFP. Will remove sediments from each catch basin and MTD. Will clean/wash all baffles and screens using a Vactor 2115. Each structure will be inspected for defects and log the depth of water sediment as well as the floatable layer of thickness. |
| Provide work plan/methodology | Work plan and Methodology detailed in response. Scope of work includes the following: Supervision, Labor, and Equipment, Traffic Signage and Control, Catch Basin Cleaning Services, Compliance and Permitting, Training and Safety, Timeline, Reporting and Documentation. | Would begin project by identifying the priorities of the City and beginning the work where it is most required. They expect to be able to clean 18-26 catch basins per day per truck. This would require working days to complete utilizing two separate crews. Would like to dedicate two full crews on project and begin Sept. 4th | Safeway provided scope of work, equipment list, contact information, safety program information, Traffic control plan, project progress schedule, work process and disposal plan |
| Describe any recommendations for successful completion of project. | None | If they were able to begin before Sept. 4th, they would expect to complete the 2,000 catch basins and 4 MTDs before the end of October. | Believes communication, safety, and extensive training of their employees are important for success of each project. Staff of environmental professionals include Certified Storm Water Operators (CSWO) and Soil Erosion and Sediment Control (SESC) Inspectors. |
| Provide the name of transport company. | Powervac of Michigan. Yes they are permitted and registered. | Pipetek will be transporting from site to approved landfill. | Safeway will provide all transportation for this project. |
| Provide name of disposal site. | PowerVac of Michigan. | GFL Environmental - Arbor Hills Landfill - Northville, MI | Valicor Environmental Services LLC in Dearborn, MI. |
| Will the City be provided a copy of the manifest? | Yes | Yes | Yes |
