Title

Request for Approval of the EGLE Restoration and Remediation Grant Work Plan for the sewer extension along Hamlin Rd., on the south side of Hamlin, east of Adams Rd., City of Rochester Hills, Applicant

Body

Resolved, that the Rochester Hills City Council hereby approves the EGLE Restoration and Remediation Grant Work Plan for the sewer extension along Hamlin Road on the south side of Hamlin, east of Adams Road, submitted by the City of Rochester Hills, to reserve a not-to-exceed grant amount of \$150,000.00, subject to the following findings and conditions:

1. The City finds that a complete application and work plan have been submitted and reviewed by the City team.
2. The work plan promotes the grant objectives to:

- a. Provide substantive improvements in reducing historical threats to public health or the environment;
- b. Provide a potential beneficial effect in the area that would not have occurred without the incentives;
- c. Incorporate a preference for source control, active remediation, or mitigation beyond what is required for due care obligations;

d. Be consistent with the City's intended uses as defined in the City's Master Land Use Plan, zoning requirements, and as deemed appropriate to ensure a desirable and cohesive development with the surrounding area.

3. All tasks must be completed in accordance with the requirements of the City of Rochester Hills Restoration and Remediation Grant provided by the Michigan Department of Environment, Great Lakes and Energy (EGLE) per PA 119 of 2023 and the City of Rochester Hills Restoration and Remediation Subgrant Policies and Procedures.

4. The applicant must execute all necessary paperwork and agreements relative to the grant application as required by the City.
