**ATTENTION: This email originated from outside of PEA.**

---

MDOT has reviewed the above referenced permit and has the following comments:

- **Plan has been approved for reusing the existing driveways and small sidewalk connections in MDOT ROW only.**
- Insurance - The permit applicant or the applicant's Contractor must submit an electronic Certificate of Insurance in the MDOT e-bond system before the permit can be issued. Please electronically submit MDOT Certificate of Insurance for Permitted Activities form 2020, which reflects the insurance requirements and conditions. The Applicant/Contractors Insurance Agent shall contact Lauri Olsen (MDOT Lansing Permit Office) via e-mail at [MDOT-ePerformanceBondCOI@michigan.gov](mailto:MDOT-ePerformanceBondCOI@michigan.gov) or 517-241-8503 to register for the electronic submittal system.
- Bond – exempt due to the minor work in MDOT ROW

We will be placing the permit on hold in CPS while we wait for the above items.

## Hassan Alwan

MDOT Oakland TSC

Permit Engineer
