Our Findings and Recommendation for Police Service Sustainability – Very Efficient Service

Comparison of Sworn Police Officers per 1,000 residents
(2011)

Rochester Hills has maintained the lowest cost and the lowest ratio of Police Officers per capita of most Oakland County cities.

Law Enforcement Cost Comparison (Budget to # of Sworn Officers) 2011

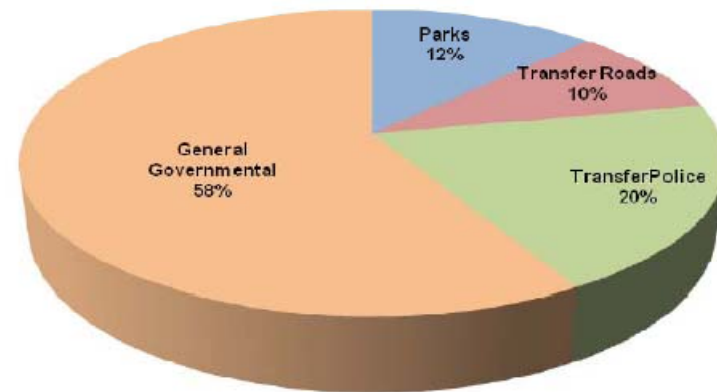

Our Findings and Recommendation for Police Service Sustainability – Funding Challenges

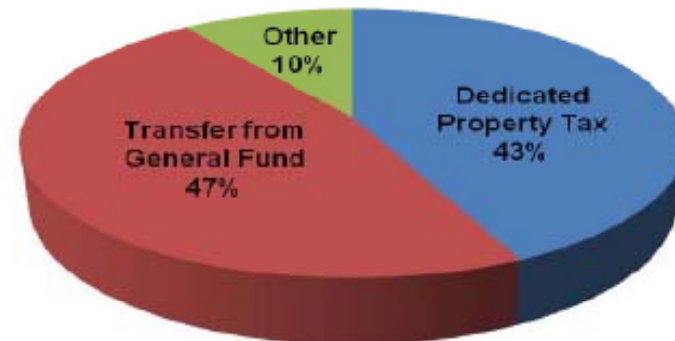

- First source of funding – General Fund
 - Prioritize Police but hinder Local Road Funding
- Beginning in FY 2016, increased funding further erodes Local Road support
- Multiple dedicated millages fund remainder of police service
 - Dedicated millages expiring in 2013

Multiple funding sources create administrative challenges and confuse residents

General Fund Expenditures by Function
FY 2011

Special Police Fund
FY 2011 Revenues

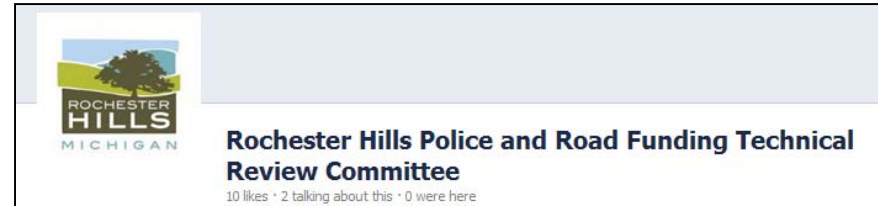

Our Findings and Recommendation for Police Service Sustainability – Impact on Public Safety

- **Currently 57 Officers**
 - ❑ Reduced to 57 in FY2011
 - ❑ Proposal to reduce to 56 officers in FY2012 and 55 in FY2013, in an effort to control an ever increasing General Fund subsidy, was rejected by city council
 - ❑ Resident concerns about future reductions

Proposed Reductions Will Impact Response Time

 - Maintain/Enhance Response Time
-

Our Findings and Recommendation for Police Service Sustainability – Feedback From Residents

- "... my opinion on this issue is to pick this option: to amend the city charter to add 3.7 mills for funding of police services. If included in the charter... We will always need police services, and it doesn't make sense to spend time and money reviewing this every so many years, and even risk the possibility that funding won't be approved."
- "... strongly support the proposal ... we need to keep our R. Hills community a safe place to live and enjoy."
- "Seems like the proposal is simply a continuation of funding at current levels..."
