Dear Rochester Hills City Council,

The Heatherwood Village Homeowners Association is requesting City Council to pass a five year resolution allowing the Association to apply to the Michigan Department of Natural Resources for permits for Canada Goose nest destruction and bird round-up, if necessary. These birds are a nuisance and health risk to residents around the pond adjacent to Arlington and Bolinger and also to motorists and pedestrians on nearby streets. The residents have asked the Association Board to take action to resolve this problem.

The MDNR requires signatures from at least 70% of homeowners or a resolution from City Council to approve the issuance of permits. There are approximately 430 homeowners in the subdivision, obtaining 70% of their signatures is impractical.

The Heatherwood Village Homeowners Association thanks City Council members for their time in consideration of this matter.

A handwritten signature in black ink that reads "Colin McCoy". The signature is written in a cursive style with a large, stylized "C" and "M".
