Legislative File No: 2020-0179

**TO:** Mayor and City Council Members  
**FROM:** Allan E. Schneck, P.E., Director of Public Services  
**DATE:** May 18, 2020  
**SUBJECT:** 2020 Pavement Striping Program, City File #E20-011

---

**REQUEST:**

The Department of Public Services requests City Council authorize a blanket purchase order/contract for the 2020 Pavement Striping Program to P.K. Contracting, Inc., of Troy, MI in the amount of \$66,789.84 with a 5% contingency to allow for quantity adjustments based on final measurements verified in the field in the amount of \$3,205.91 for a total not-to-exceed contract amount of \$69,995.75.

**REASON FOR PURCHASE:**

The Road Commission for Oakland County (RCOC) received bids for their combined 2020 County-Wide Striping. P.K. Contracting, Inc. was awarded the R.C.O.C. contract for the striping portion of this program on March 24, 2020 as the lowest, responsive, responsible bidder and has agreed to extend the same R.C.O.C. 2020 contract unit pricing to the City of Rochester Hills for the "2020" construction season.

The City's 2020 Pavement Striping Program includes the application of sprayable thermoplastic for the City's white and yellow longitudinal lines. The benefits of using sprayable thermoplastic over waterborne paints are as follows:

- 1) Thermoplastic is a more durable product and only requires one (1) application per year versus two (2) applications for waterborne paints.
- 2) Longer life with prolonged retro-reflectivity (40 mil material versus 15 mil material).
- 3) Due to sprayable thermoplastic's quick drying time, disruption to traffic is minimized since no coning off of roads is required.
- 4) Reduced potential for vehicle tracking of wet materials. This results in fewer or no claims due to fast dry time (product dries after marking vehicle has traveled approximately 200 feet).

The 2020 Striping Program is essential to the City of Rochester Hills due to it enhancing the safety of road users. These functional road markings assist in reducing crashes, mitigating injuries and minimizing associated liabilities.
