**Re: Request to Extend Technology Drive to MDOT’s Limited Access
Right-of-Way along Adams Road - City Section # 30**

Dear Mr. Sander:

The City of Rochester Hills would like to begin discussions regarding the possible extension of existing Technology Drive north to Adams Road, which will be relocated this summer to complete the M-59 / Adams Road interchange project. The extension of Technology Drive requires permission to utilize a portion of the Michigan Department of Transportation’s (MDOT) limited access right-of-way for road construction purposes. A project location map indicating the proposed road connection is attached for your reference.

Please contact me at your earliest convenience at (248) 841-2489 to discuss the formal process for obtaining permission to utilize MDOT’s limited access right-of-way to extend Technology Drive. If necessary, we can schedule a meeting to review existing plans for the M-59 / Adams Road Interchange and the proposed realignment of Adams Road to identify the potential impacts of extending Technology Drive through to MDOT’s limited access right-of-way. Thank you for your time and consideration.

Sincerely,

Paul G. Shumejko, P.E., PTOE
Transportation Engineer

PGS/jfd
