Re: *Madison Park Project*

Dear Mayor Somerville and Council Members:

The purpose of this letter is to express my support for the development that will be taking place at Adams and Hamlin Roads. It is my understanding that a reputable developer has assembled a plan which will incorporate Brownfield Development and involvement by the DEQ for the State of Michigan to remove the toxic waste from the site. There will be no harm or adverse impact on the community and the development will be compatible with the surrounding community. This kind of project will not only provide additional revenue to the city, but will enhance the quality of living which we have come to expect.

I fully endorse this project and I would recommend that the mayor and council move forward on this development. Thank you for your consideration.

Very truly yours,

J. Martin Brennan, Jr.

JMB/mcz
