

CITY OF ROCHESTER HILLS
2004 GENERAL ELECTION RESULTS
LOCAL INITIATIVES

Proposal 1

Open Space Land Acquisition Millage

Proposal 2

Local Streets Millage

Proposal 3

Amendment to Eliminate City Primary Election

November 16, 2004

Prepared by
Planning and Development Department
with the assistance of the
MIS Department

City of Rochester Hills

2004 Election Results for Local Initiatives

Following are a series of tables, graphs, and maps that show the results of the 2004 General Election for the local Initiatives. These Initiatives included a question of approving a dedicated 0.50 mills for a period not to exceed 10 years to be used to purchase, preserve, and protect lands for open space. The second Initiative was seeking the approval of a dedicated 2.9213 mills for a period not to exceed 10 years to provide monies for maintenance, repair and reconstruction of the City's 217-mile residential street network. The third question asked for the consideration of approving an amendment to the City Charter to eliminate the City's Primary Election.

All three of the local initiatives failed.

	YES	NO
The Open Space Millage	44.9%	55.1%
The Residential Street Millage	33.5%	66.5%
Eliminate City Primary	45.8%	54.2%

The analysis on the following pages provides the results on a precinct-by-precinct basis, all 29 of them. The results are shown in a Table form. This Table includes columns that show what City Council District the precinct is located in as well as the general area of the City. The major roads that define the boundaries along with the neighborhoods and residential areas that comprise the precinct are also listed. A graph of the results is also shown and the results are also mapped. The mapped products outline the precincts and by the use of color shades distinguish between whether the precinct approved (greens) or rejected (yellows) the question and by color gradations showing the general percentage of support or rejection (the darker the shade the stronger the approval or rejection). No Absentee results are included in the graphs or mapping this section.

The second grouping provides the results for the Absentee Ballots. Because of the mechanics of the process, Absentee Ballots can only be sorted by the County Commissioner District. As there are three County Commissioner Districts there are three assigned "precincts" above and beyond the 29 precincts that make up the City of Rochester Hills. These Absentee Ballots Precincts are numbered 30, 31, 32. There is a map that depicts the geographic areas defined by the County Commissioner Districts. The Table provided in the previous section contains the data for the Absentee Ballots.

The third section is a regrouping of the precincts to provide results on nine general geographic areas of the City. These nine general areas were the same used for a survey conducted in the Spring of 2003. The format is the same as previous sections. The Table that is provided shows what precincts are used to make up the nine areas and it also includes subtotals. There is a map included that shows what areas make up the nine geographic segments. These results do not include any tallies from the Absentee Ballots.

Absentee Ballots
 Absentee Ballots are divided into 3 areas for the 2004 General Election. Those areas represent the three different County Commissioner Seats that were on the ballot.
 The Precinct Number assigned is in addition to the City's 29 precincts and represents a compilation of precincts.

Absentee Ballots

Absentee Ballots divided into 3 areas for 2004 General Election. Those areas represent the three County Commissioner Seats on the ballot. The Precinct Number assigned is in addition to the City's 29 precincts and represents a compilation of precincts.
