RE: Rezoning Request
Jack's Place for Autism
1680 Livernois

Dear Derek,

As you are aware, we are requesting that the City give consideration to re-zoning the above referenced parcel to SP Special Purpose zoning. We feel this is appropriate zoning for Jack's Place and future uses of the site for the following reasons:

- The site is located on a major public road. The ease of access to this site makes it an ideal location for uses that cater to the general public
- The proposed zoning is consistent with the Special Purpose Zoning granted to the Fire Station that is located adjacent to the site
- Granting Special Purpose Zoning will allow for transitional uses to be located on the site that are appropriate with the nearby residential zoning

If additional information is needed, please do not hesitate to call.

Sincerely,

Randall K. DeRuiter, P.E.
Vice President of Operations
