At City Council's last meeting, the Council, at my request, postponed approval of the fireworks contract so that I could look into a legal issue that a resident raised concerning the term (length) of the proposed contract w/ Melrose. I have looked into the issue and made some minor revisions to the proposed contract, which I believe now conforms to the purchasing ordinance. Jean Farris has the revised document, and I understand, through her, that Melrose agrees to the revisions.

Therefore, I am satisfied, from a legal form standpoint, with the proposed agreement, and it is ready to go back to Council for approval.
